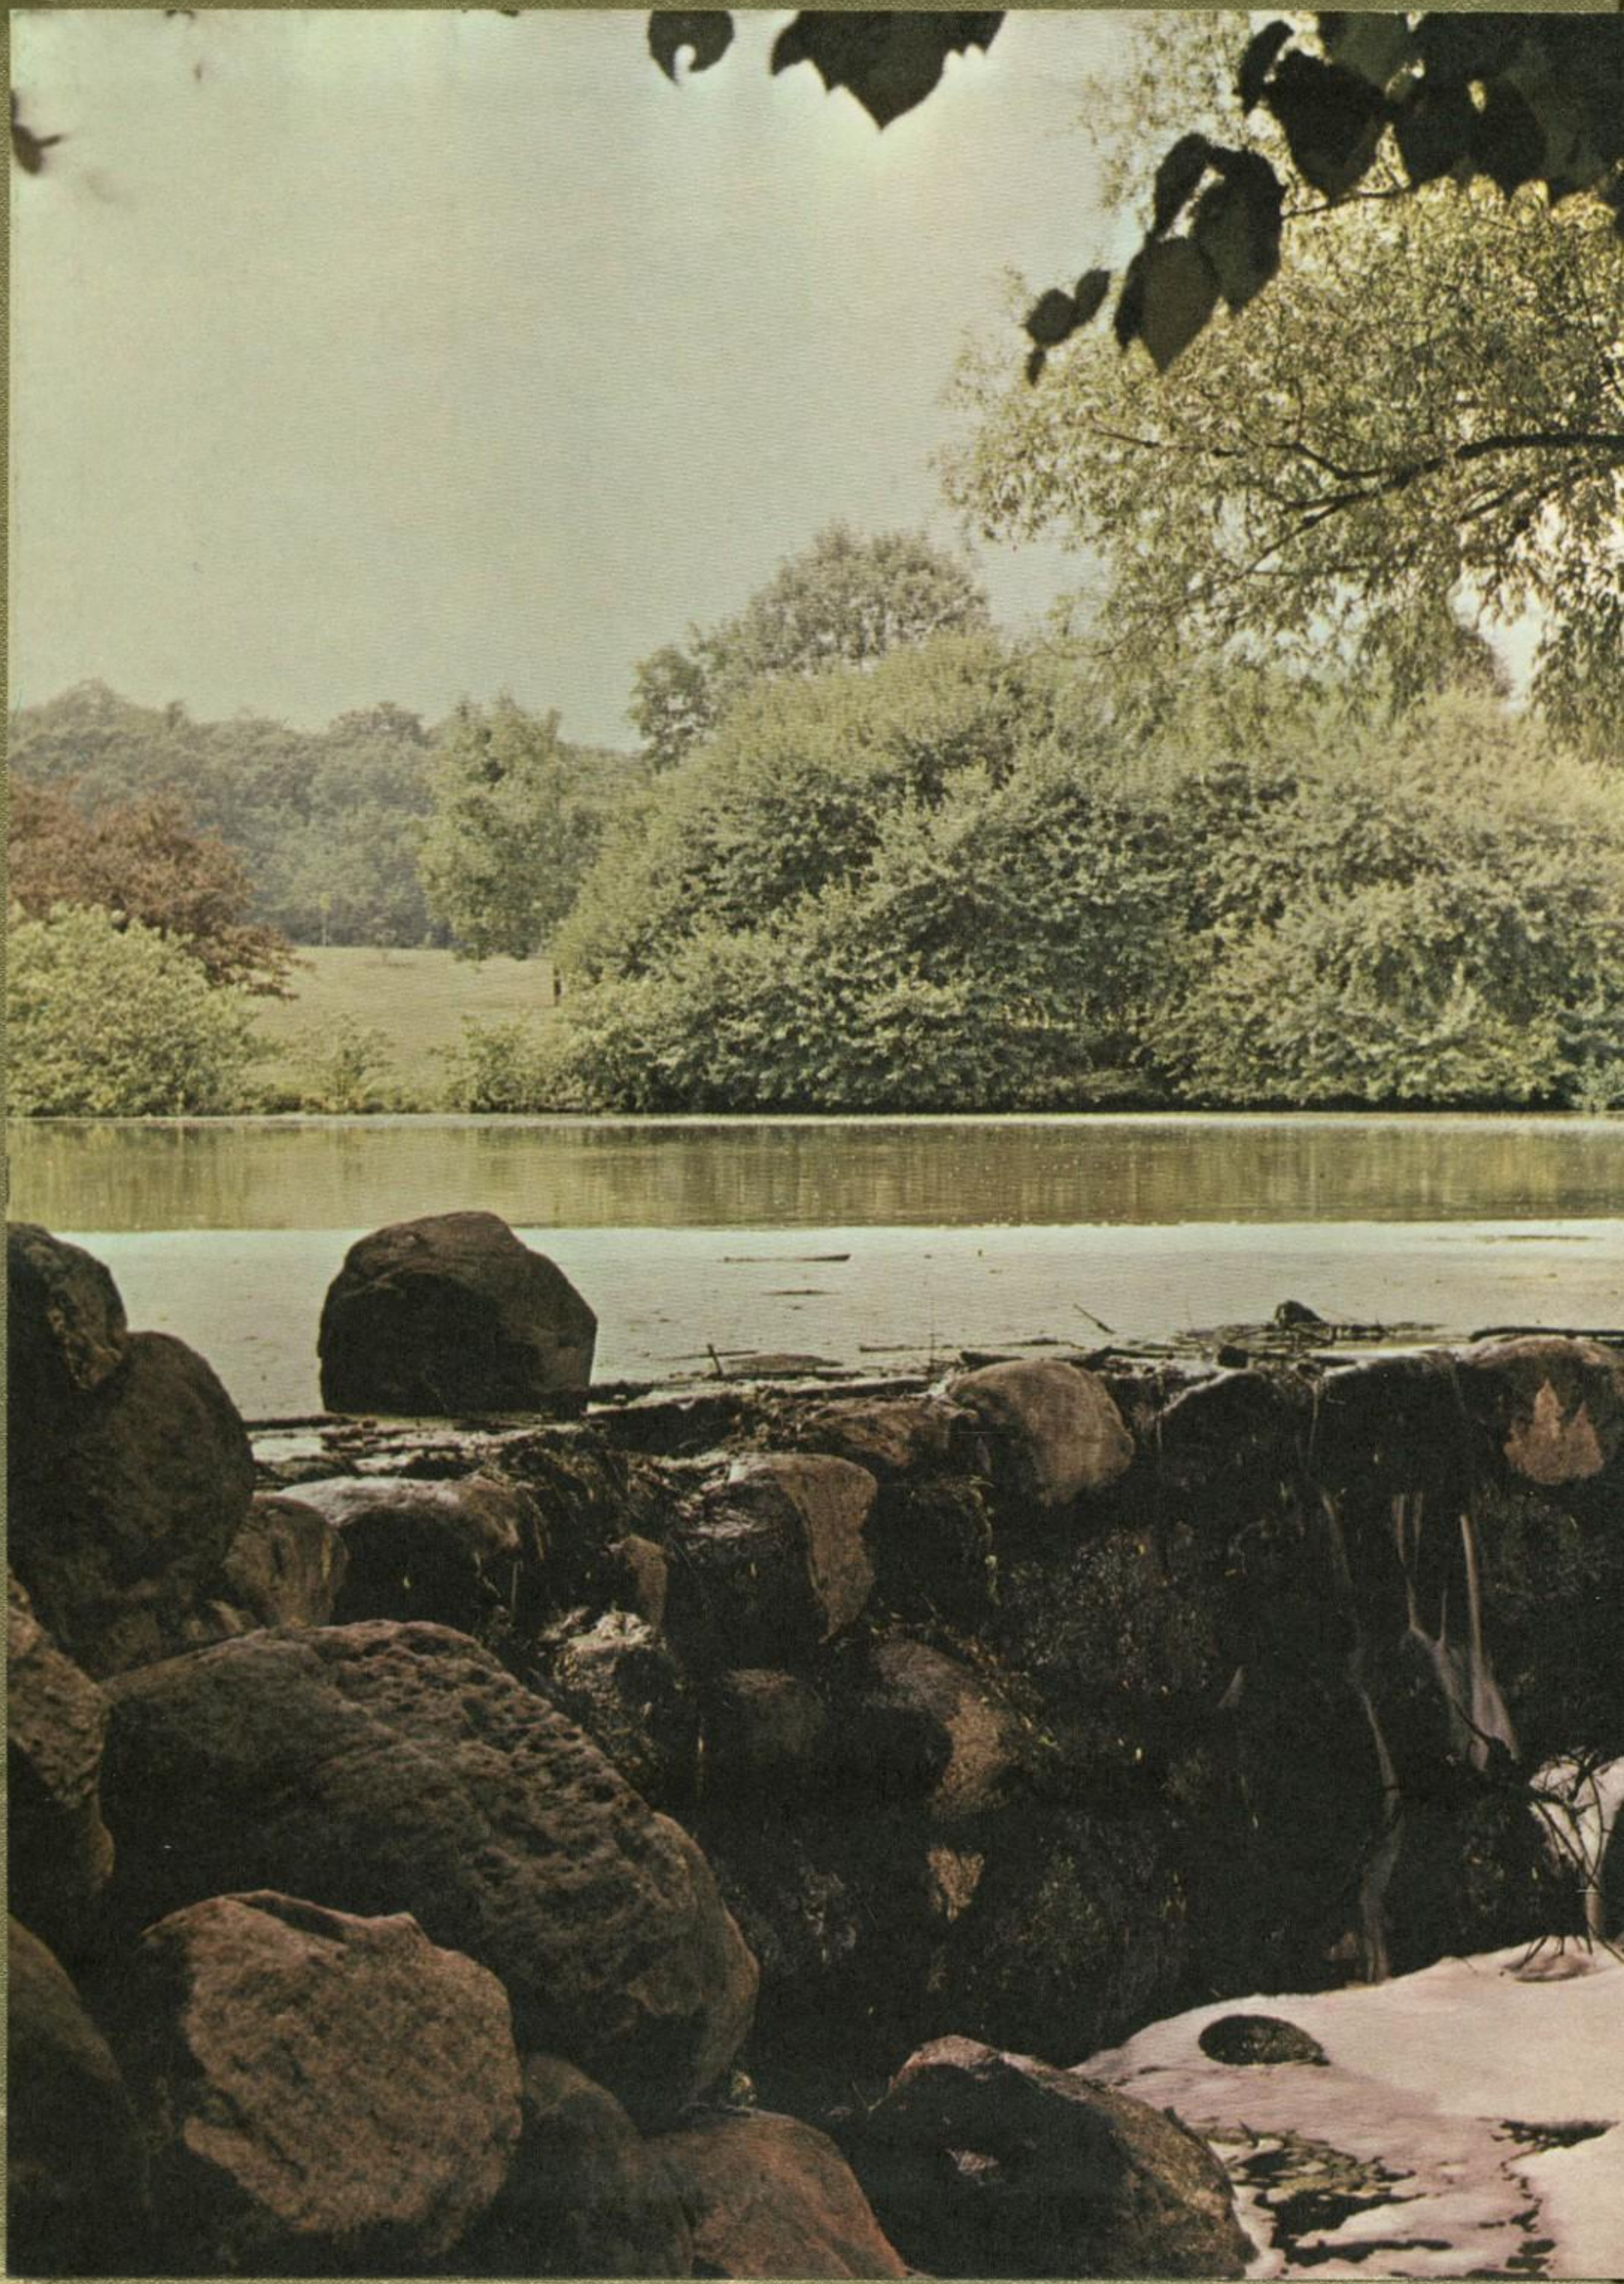
WAKA MEMORIES



WAKA MEMORIES 1969

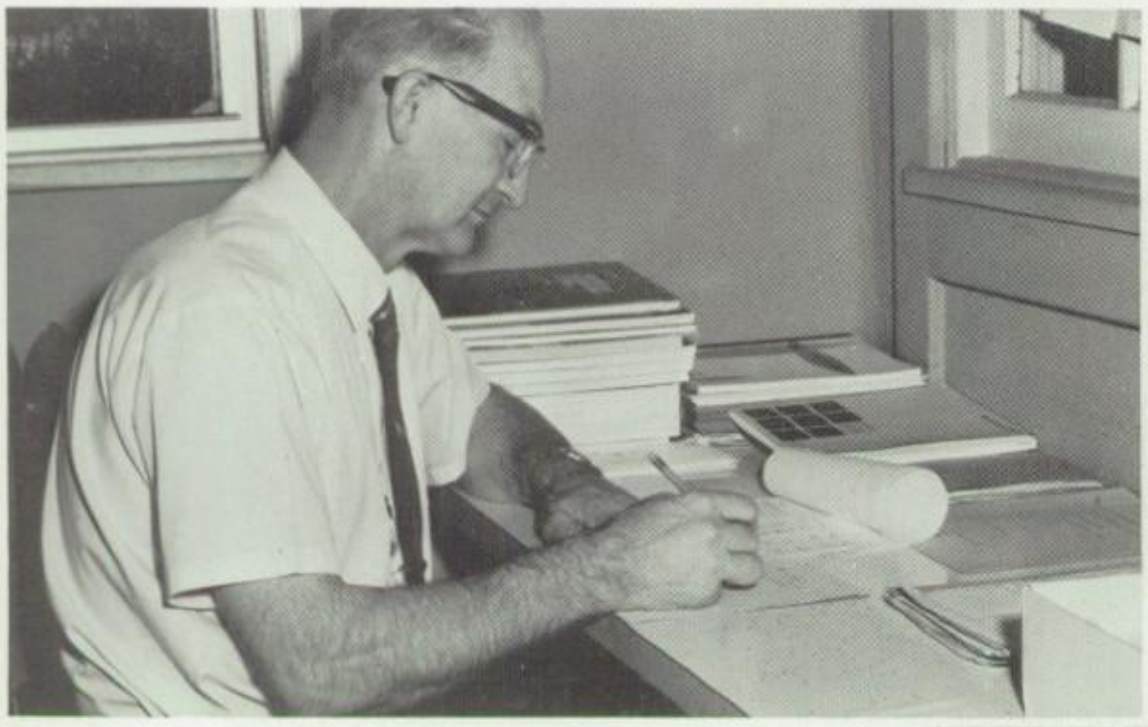
Published By
WAKARUSA HIGH SCHOOL
WAKARUSA, INDIANA

Words cannot express the respect and gratitude of everyone, past and present, toward a man who has been counselor, teacher, and friend.

He has worked for, and with, us and has given generously of his time and wisdom.

Everyone respects this teacher and looks to him for advice and help. He is never too busy to stop and talk with a student or to help the school in any way he can.

With thankful hearts, we, the 1969 Memories staff, dedicate the WAKA MEMORIES to our business education teacher and yearbook advisor, Mr. William H. Rogers.



Barb Pfeiffer and Elaine Moneyheffer
CO-EDITORS

We, the editors and staff members, are pleased to present this last edition of the WAKA MEMORIES. We hope that these pages of the past year's events will bring back happy memories in the years to come.

Although the halls of WHS may look the same as they did forty-four years ago, many feet have trod the corridors, contributing to the growth and development of the school. The laughter of students has bounced and echoed through the halls, but the quiet of classes hard at work has also crept through.

Next year will be a new beginning for all. We sincerely hope this year's WAKA MEMORIES succeeds in giving lasting memories of our school.

—The Editors

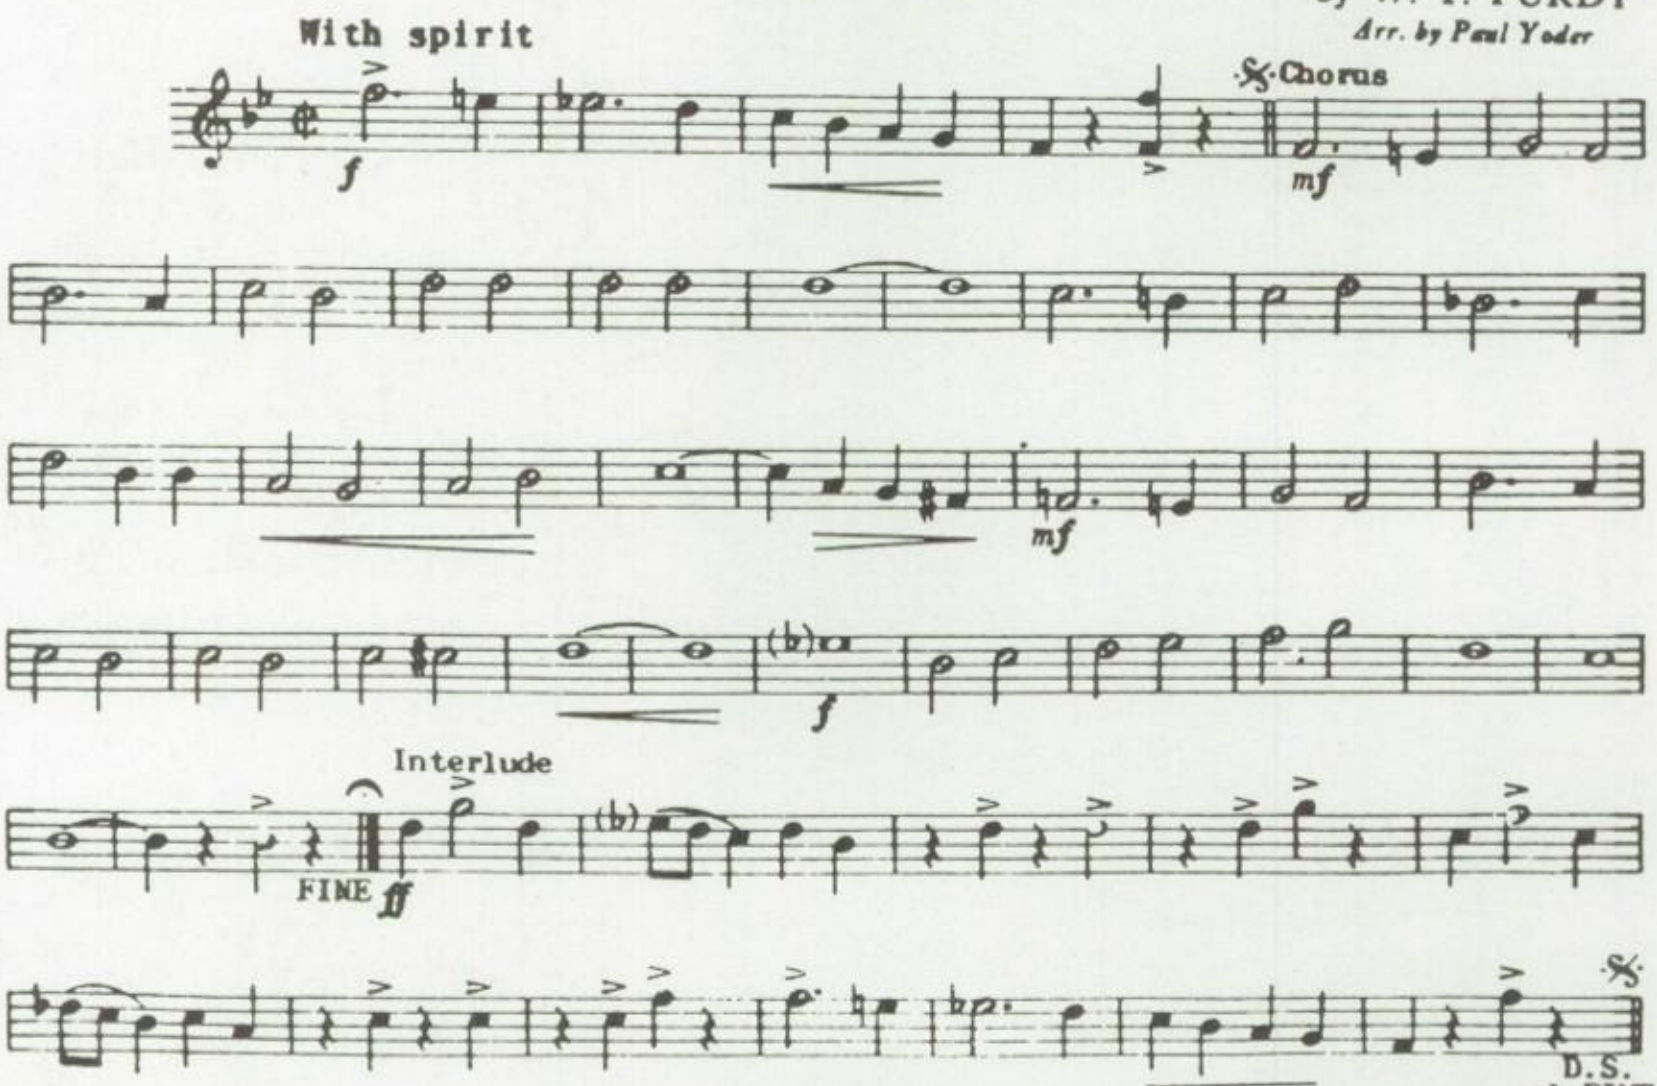
Wakarusa School Song

ON WISCONSIN

by W. T. PURDY
Arr. by Paul Yoder



Copyright 1909 by Flanner-Hafsoos Music House. Renewed

Wakarusa, Wakarusa, she will win the fight.
Always standing by her colors,
Win for thee or die, Rah! Rah! Rah!
Wakarusa, Wakarusa, Liberty she stands.
Hail dear old school you are our guiding hand.

Go Waky go,
Go Waky go,
Pass them high,
Pass them low,
Go Waky go.

OUR PEOPLE
WHO MAKE THE SCHOOL RUN

School Board

Standing: Margaret Hoffer, Richard Berger, Charles Stump, Lyle Yoder. *Sitting:* Russell Wenger, Secretary; Dr. Robert Abel, President; Kenneth Smith, Vice-President.

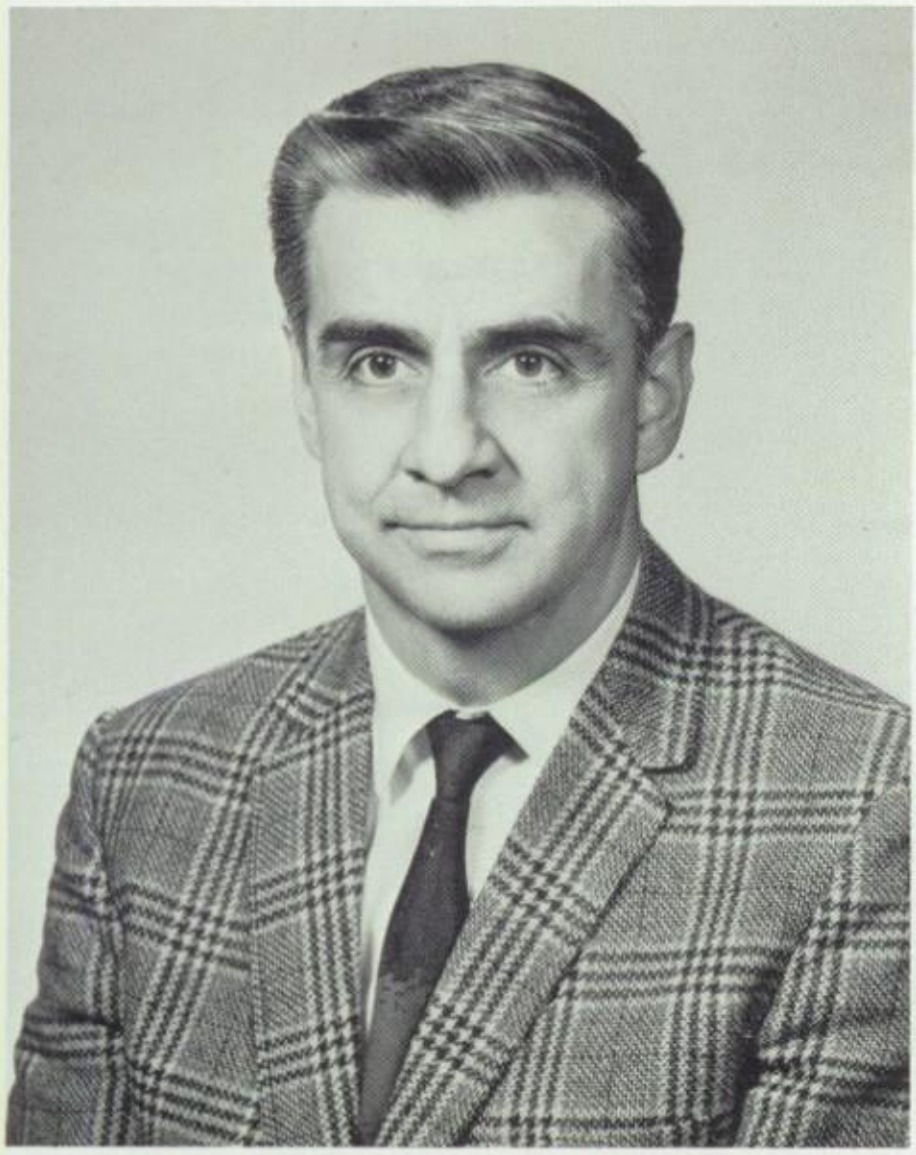
This is not the end.
It is not even the
beginning of the end.
It is rather the end
of the beginning.

—Winston Churchill

Senior Class Sponsors



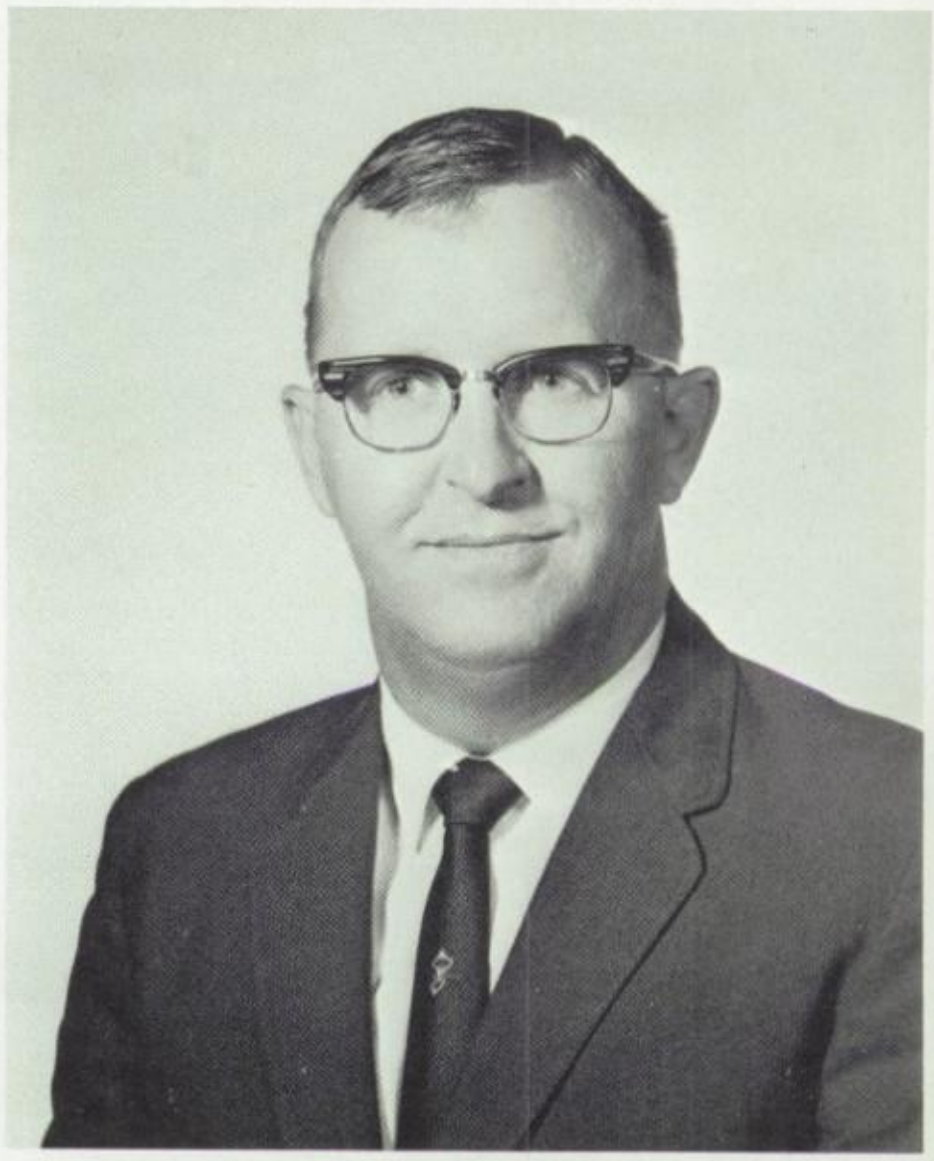
Mr. Maynard Weaver

Mr. Weaver graduated from Wakarusa High School. He then attended Goshen College, from which he graduated. He received his Masters degree from Purdue University.

Mr. Weaver started his teaching career at Osolo. Later he went to Jimtown, and finally came to Wakarusa. He teaches Advanced Math, Algebra, and Physics.

Mr. Weaver has a wife, Phyllis, and five children, Dennis, Judy, Mike, Donna, and Brian.

His hobbies are reading, gardening, and watching sports.



Mr. Frank Williams

Mr. Williams attended and graduated from Gilboa Township School. He then attended Purdue University where he received his Bachelors degree. He received his Masters degree from Ball State University.

Mr. Williams has taught at Wakarusa since he began teaching. He teaches Vocational Agriculture. He is also qualified to teach Biology and General Science.

Mr. Williams and his wife, Melba have two daughters, Debbie and Sherry.

He says that he is too busy for hobbies, but we think it is Vocational Agriculture.

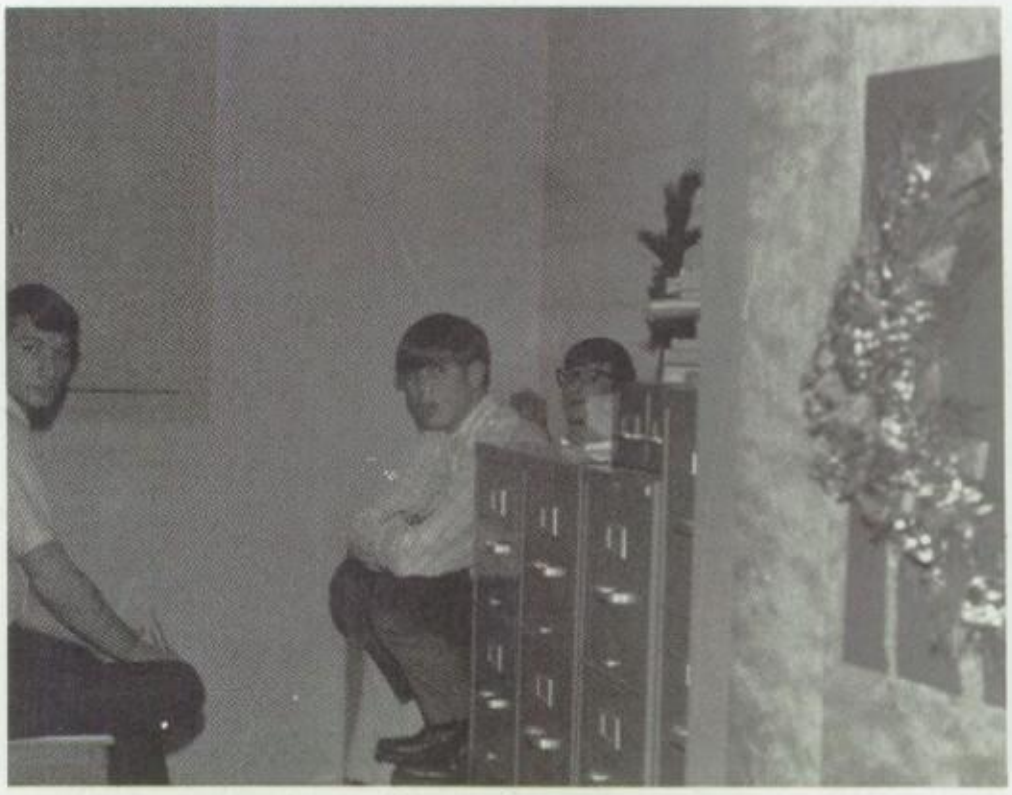
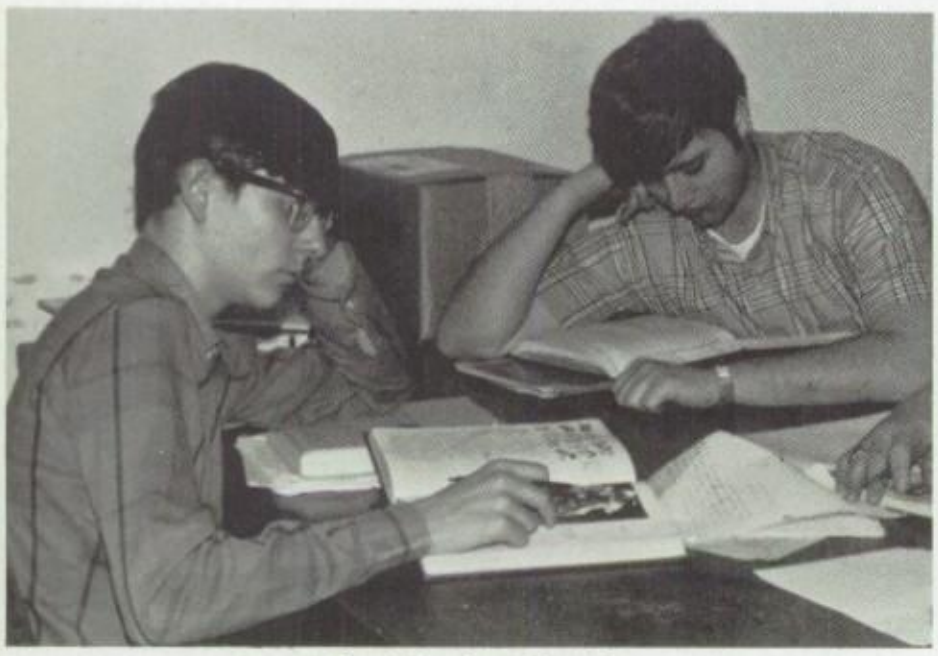
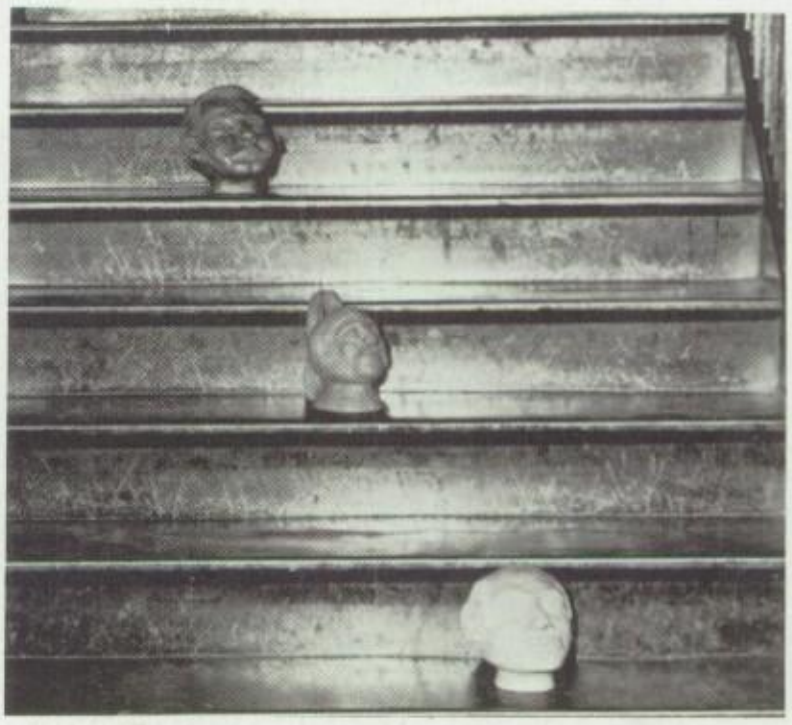
This is so hard!



All together now.

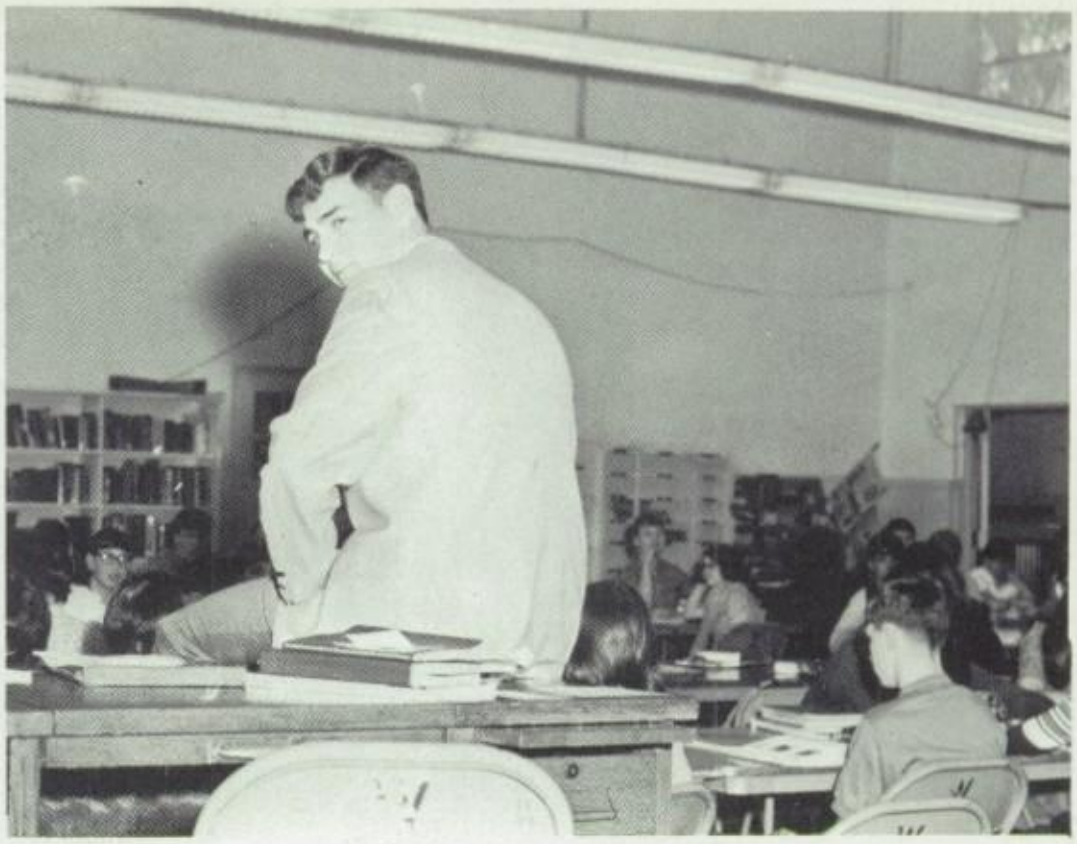


Studying hard boys?



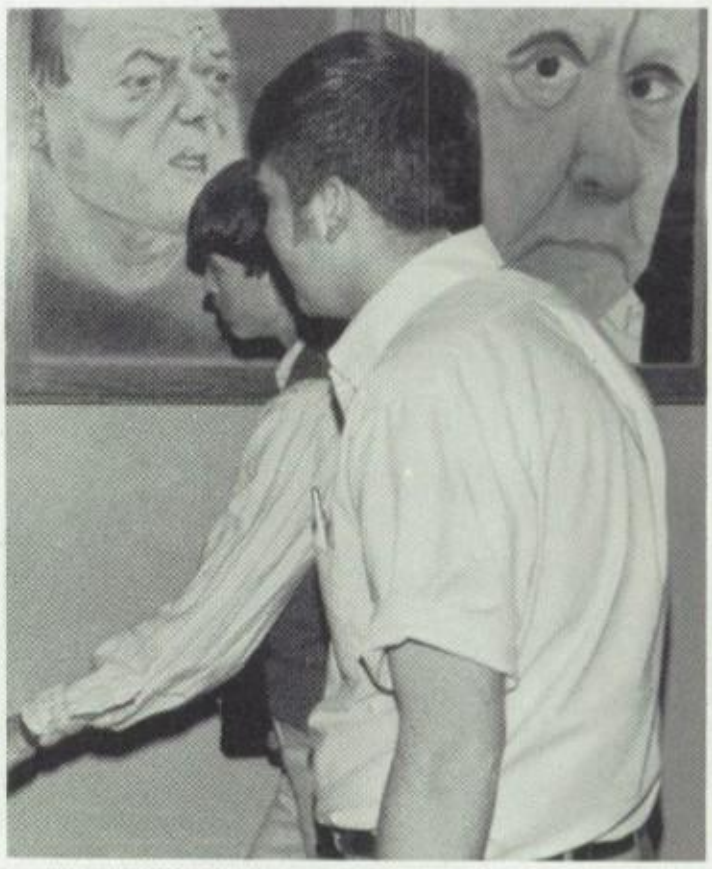
Three heads are better than one!

Now for a little socializing.



Sitting down on the job!!!

Wonder what this new student will look like.



That face looks familiar.

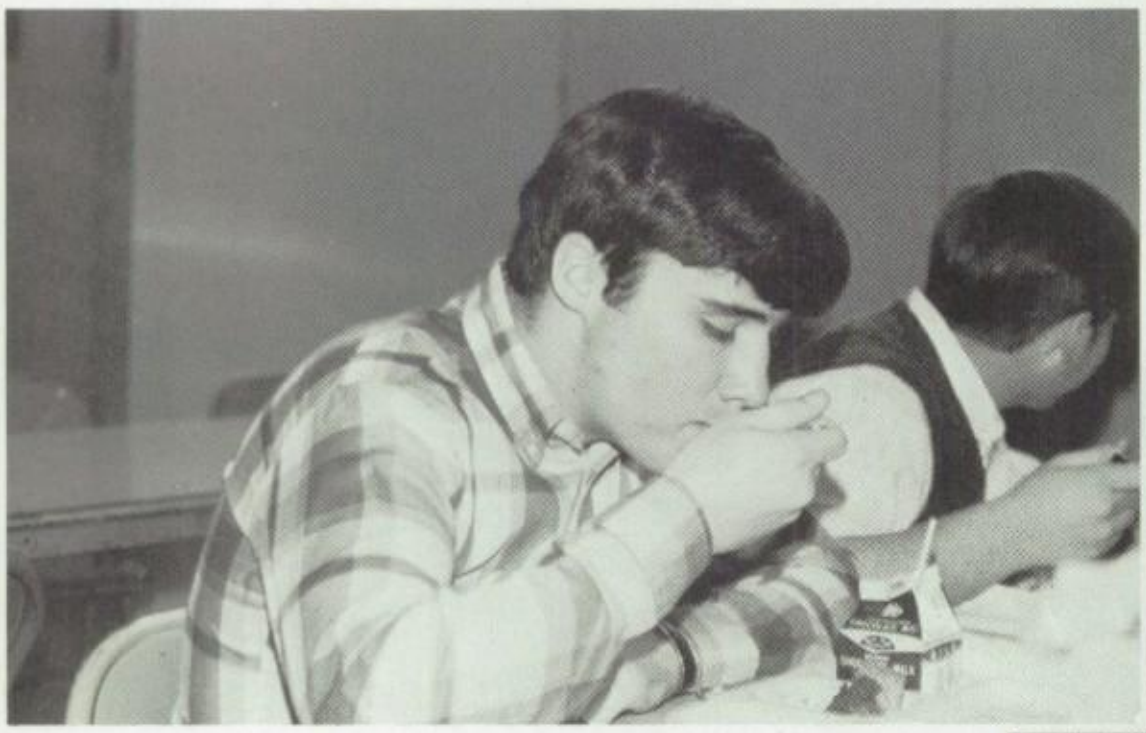
Only their hairdresser knows.

Are school lunches *that* bad?

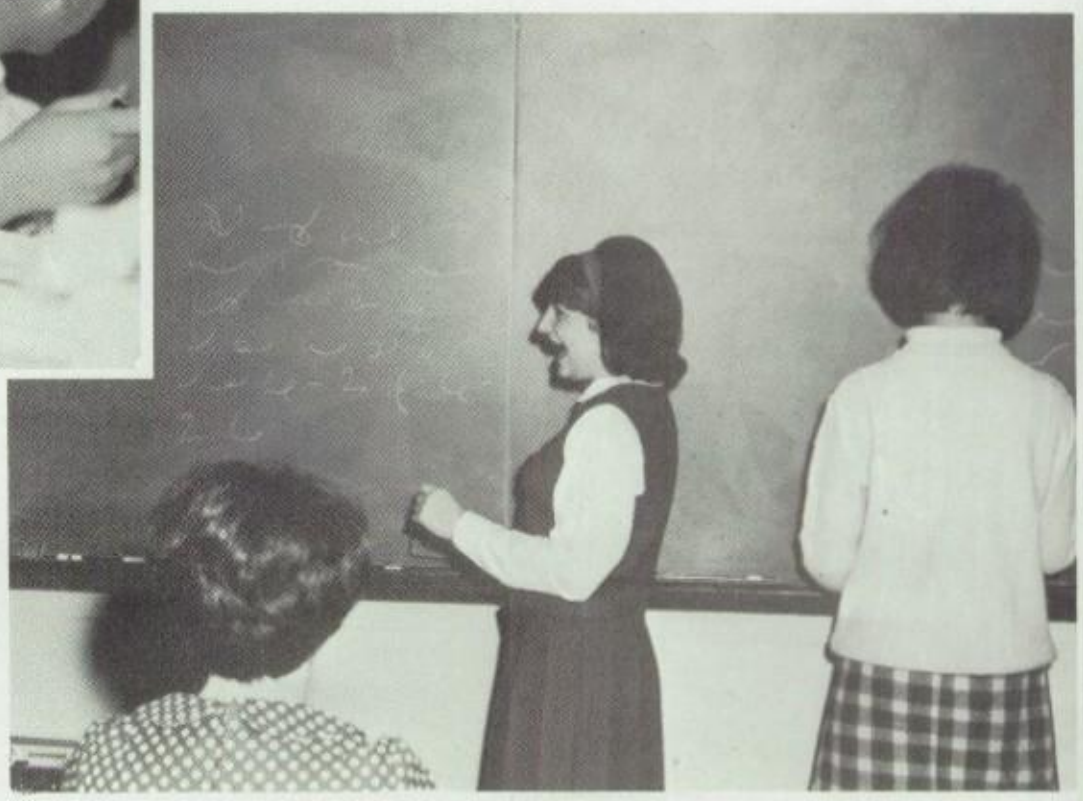
Perturbed?

Where did that typing key get to?

Gee ... Gosh!



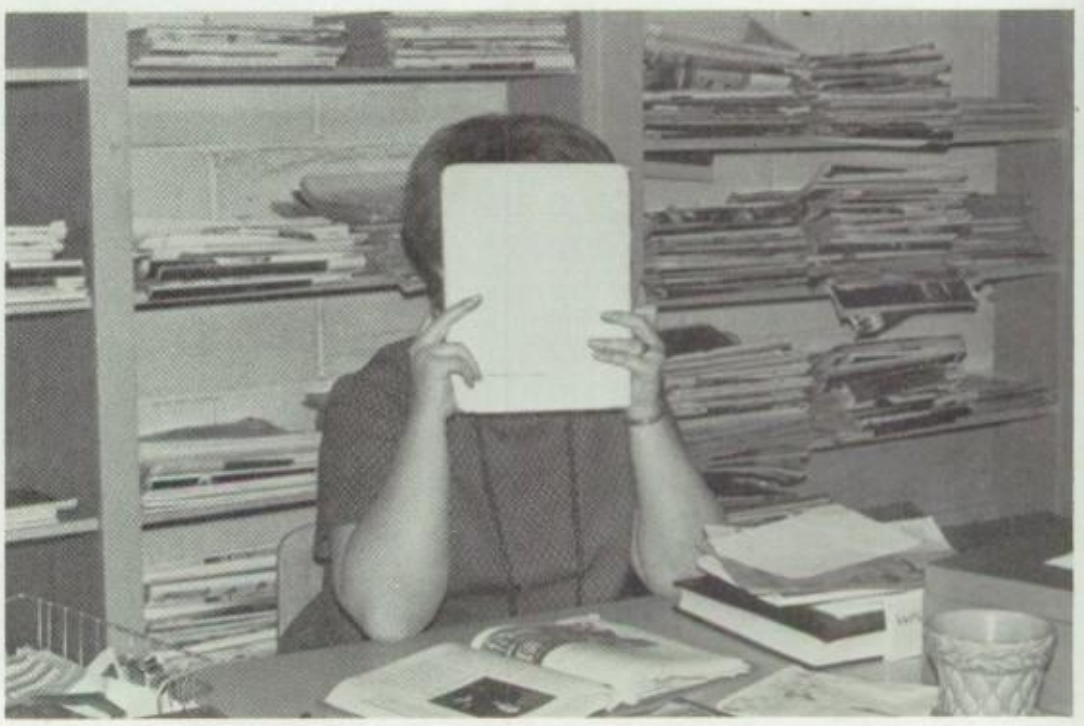
Mm ... Mm ... G-o-o-d!



Becky, what did you write?

"I love my new Singer sewing machine."

"I love this yearbook staff work."



The great American cover-up.

Have you heard about . . . ?

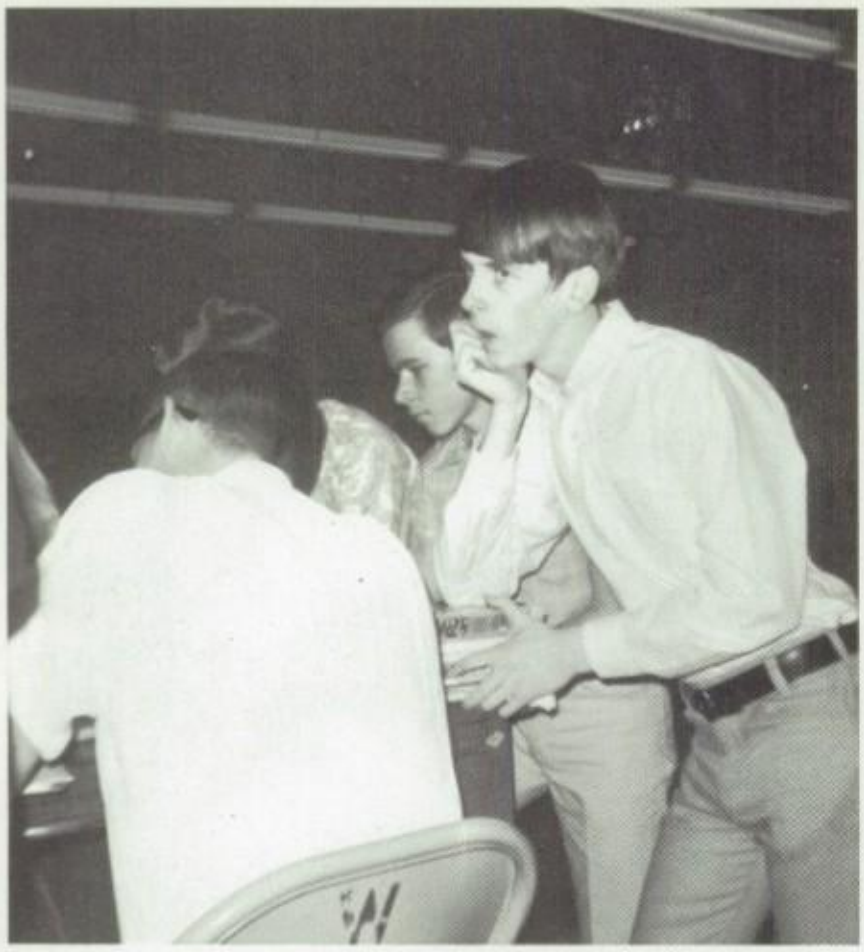
Slow eaters.

Three girls—one boy???

"V" for victory.

Wise Guy!

Since when do you prefer boys' hands to girls' hands?

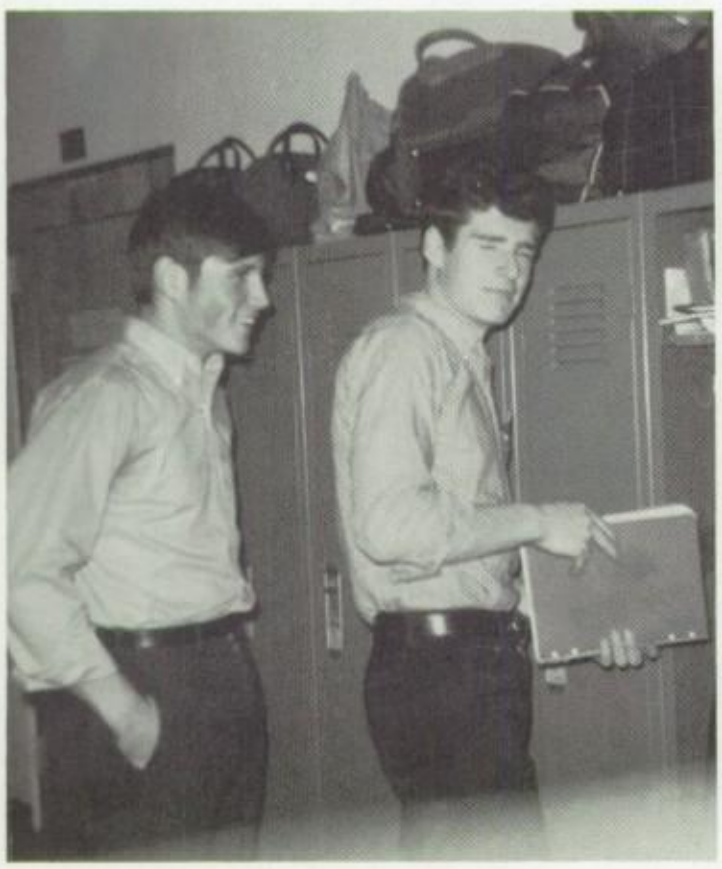


What you have to go through to get out of S.H.

My Polygrip just doesn't grip like it used to!

Say "cheese."

Diane, who is at the other end of the hall?



Turn off the lights.

Here we are!

CLASSES

Business

Typing

The purpose of this course is to teach one how to use the typewriter with some degree of skill. This includes learning the machine parts and their proper operation and control, learning how to operate the keyboard by touch, develop typing speeds, with practice in typing themes, book reports, letters and other similar material.

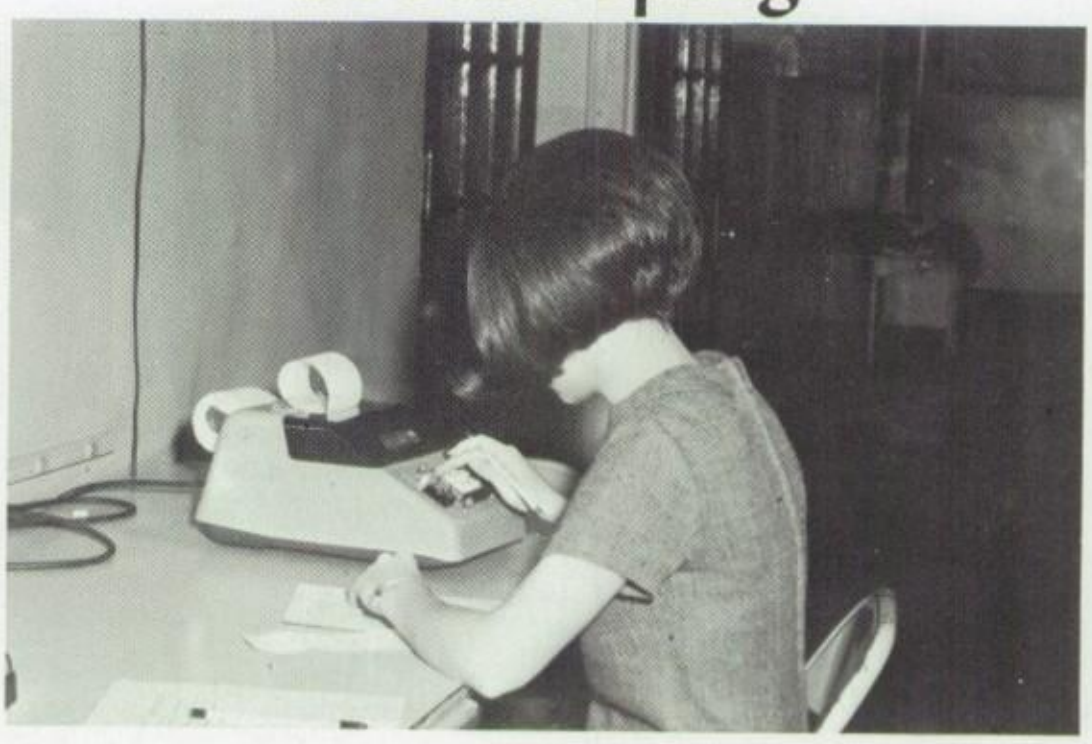
Shorthand

Shorthand is a system of fast writing by the use of symbols. The aim of this course is to master the theory of Gregg Shorthand and develop a writing skill up to 80 words per minute by the end of the year.

General Business

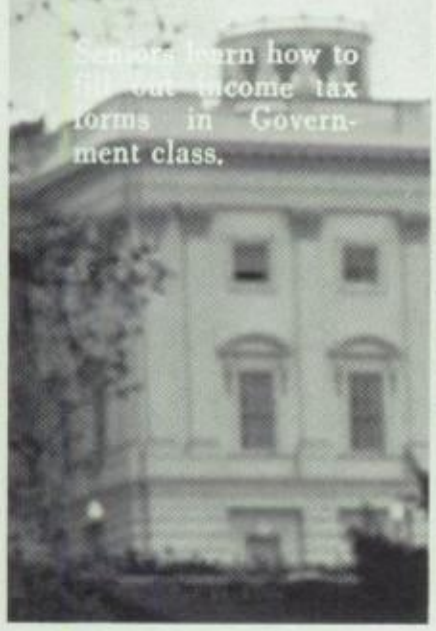
The purpose of this course is to give pupils an understanding of business and economic practices valuable to consumers of business goods and services.

Bookkeeping

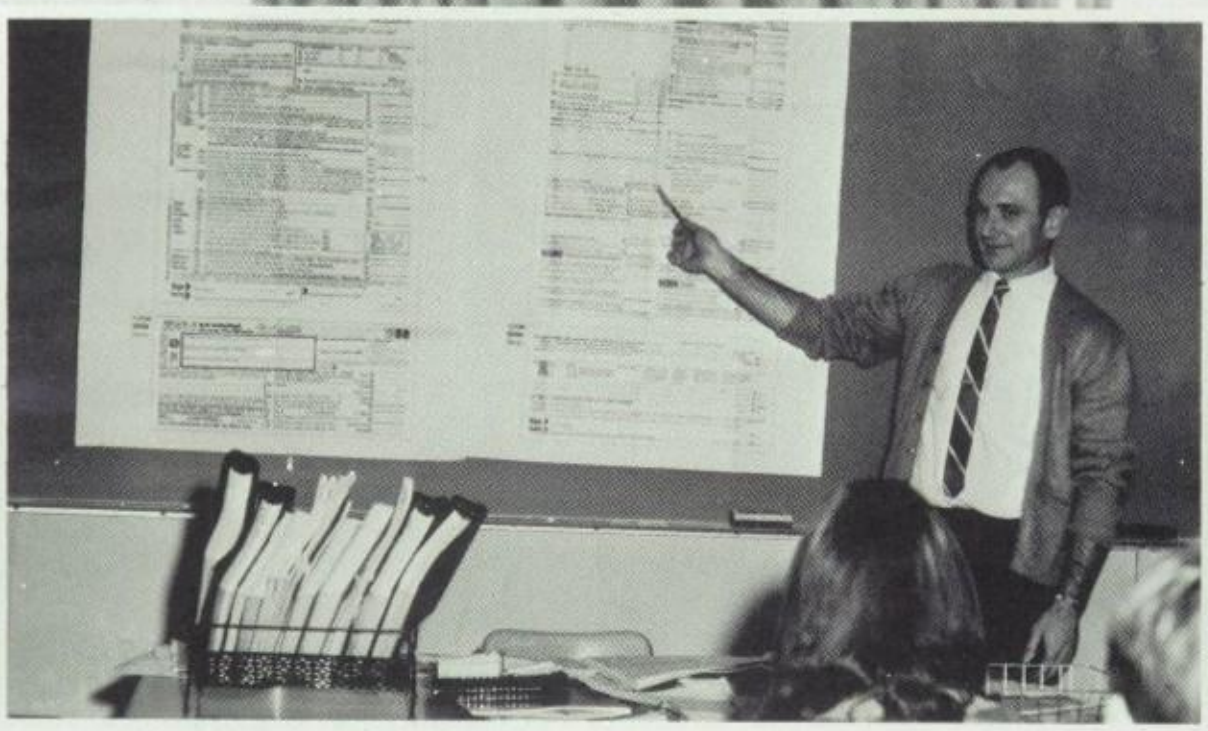


This course teaches the principles of accounting with their application to individuals, partnership, and corporation records. It also introduces some methods of data processing.

Government



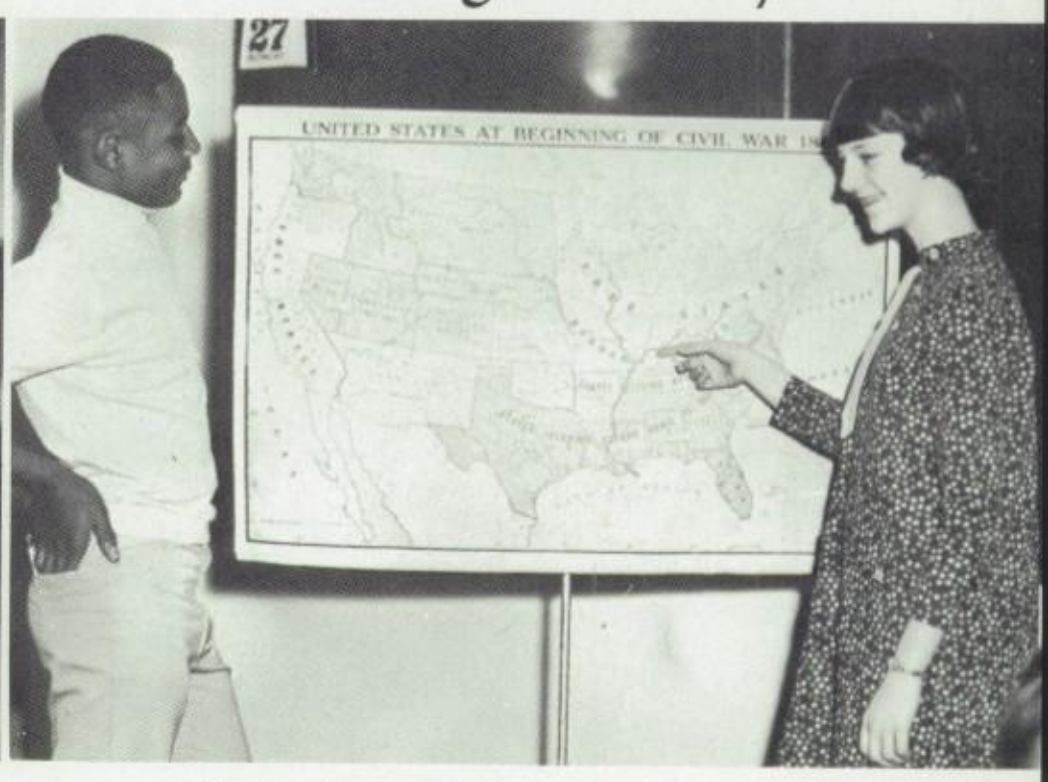
Seniors learn how to fill out income tax forms in Government class.



U.S. History

Juniors relive the signing of the Declaration of Independence.

Jr. High History

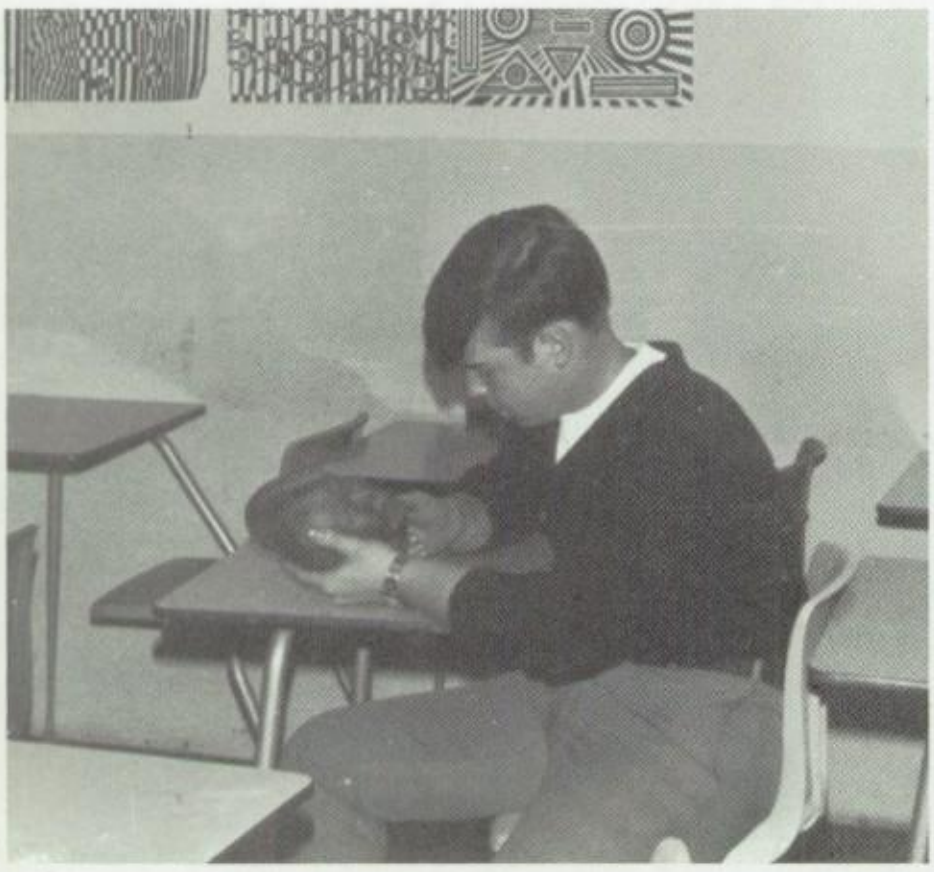


Tracing the route of the underground railroad.

Charlie Brown and his friends.

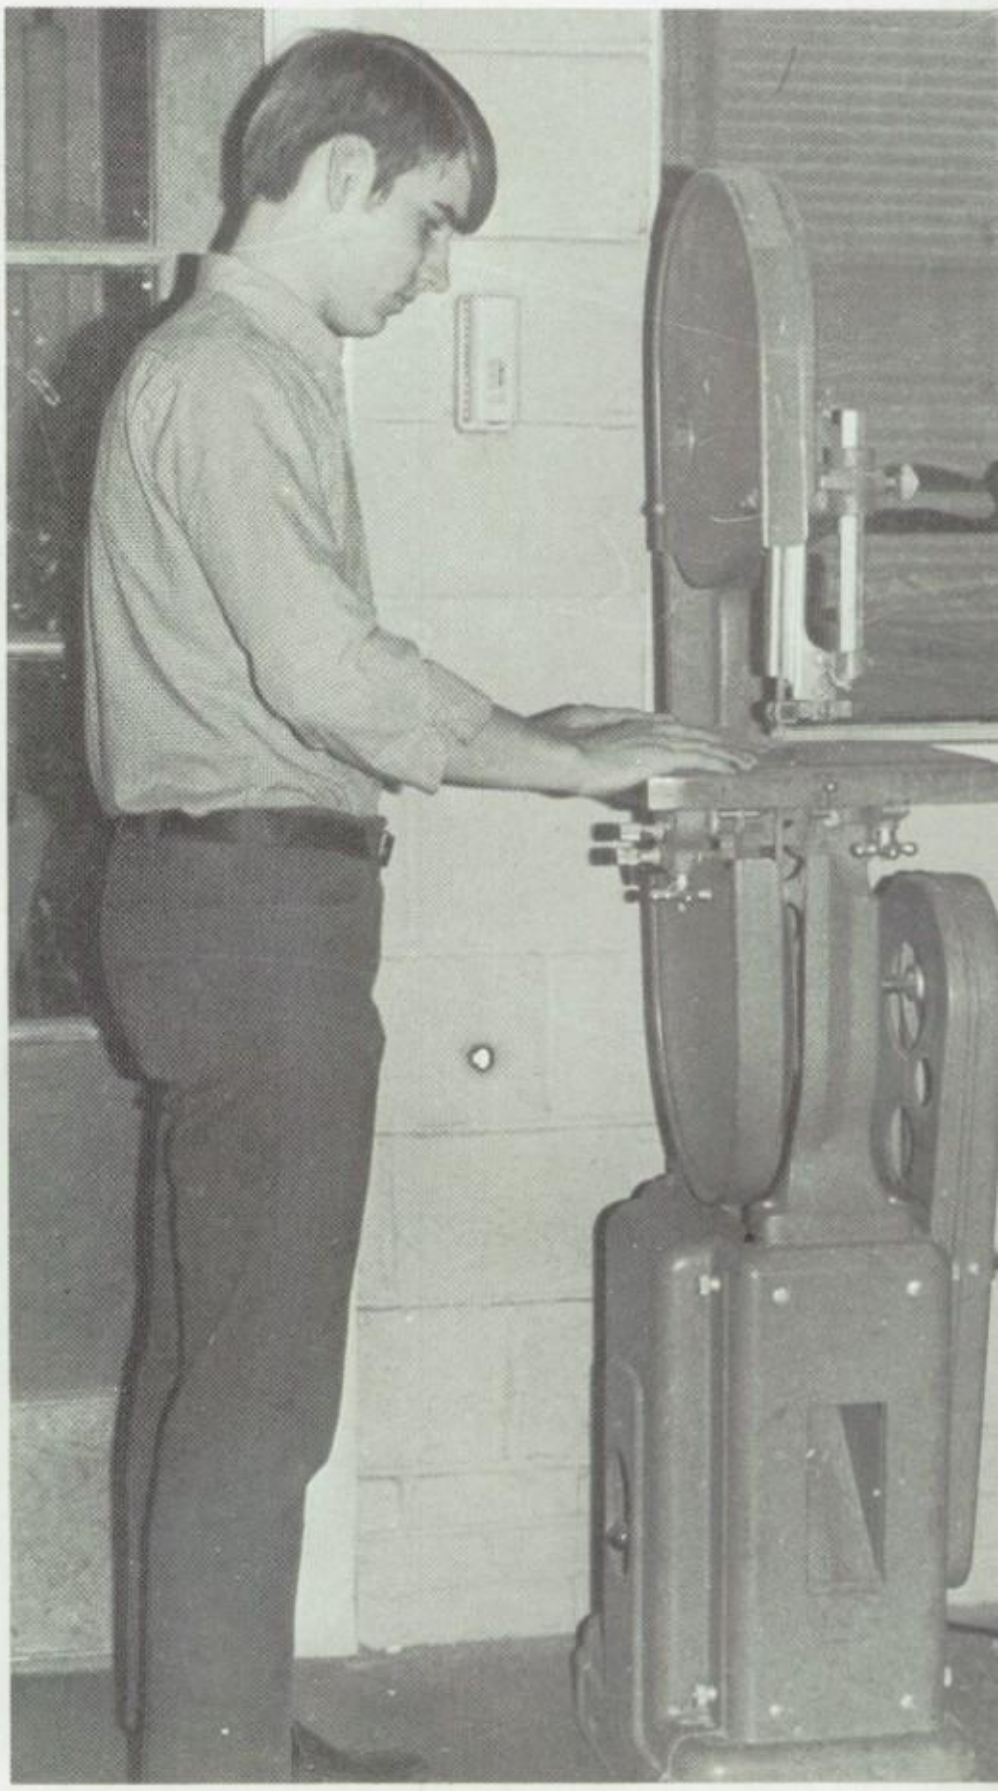
Yes, the guillotine is working!

Art



Speak to me Clyde ...

Mechanical Drawing.



Woodworking.

Home Ec.

Sewing

Refinishing

Agriculture

Farm Shop

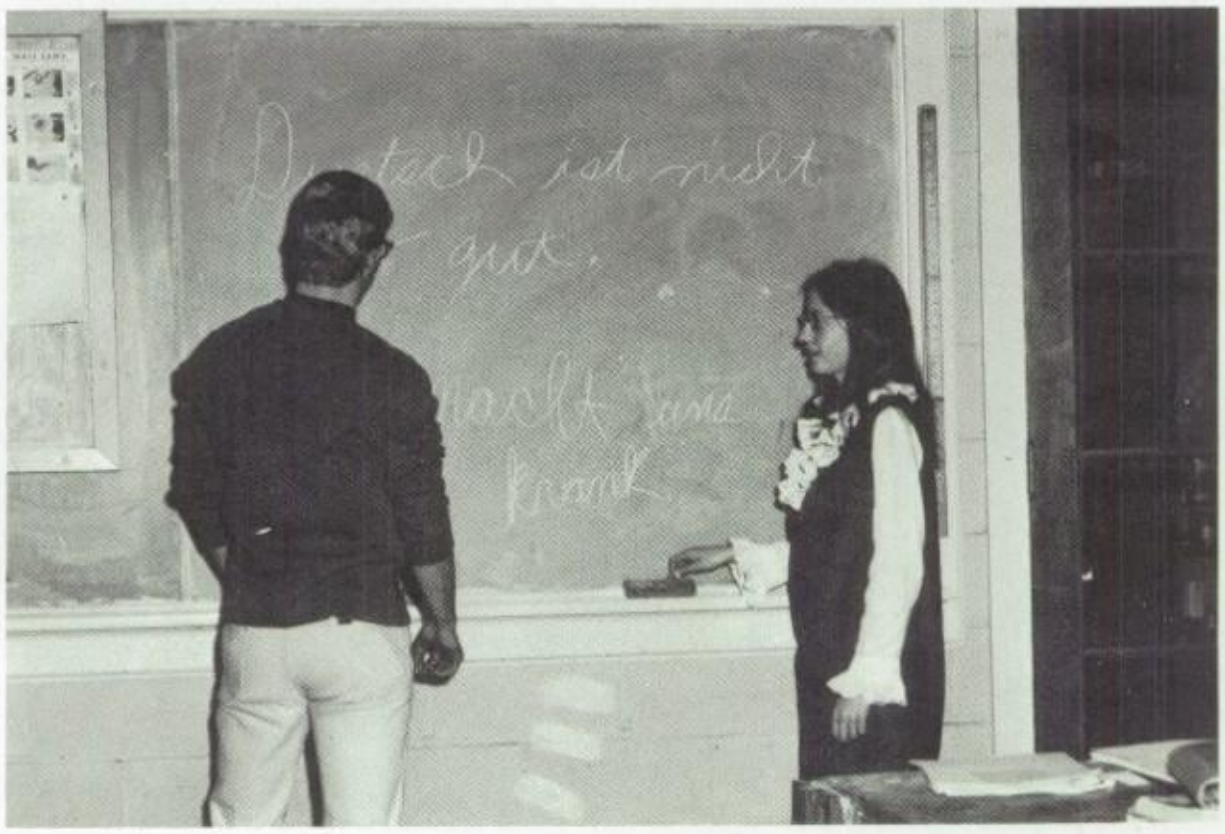
Welding

Languages

Spanish

How broad is your vocabulary of foreign words and terms? The Spanish course, basically Latin-American oriented, is designed to help the student acquire clear, distinct, and natural pronunciation of Spanish. The student learns to comprehend, speak, read, and write Spanish within reasonable limits, and begins an acquaintance with the cultural, geographical and historical background of Spanish-speaking peoples.

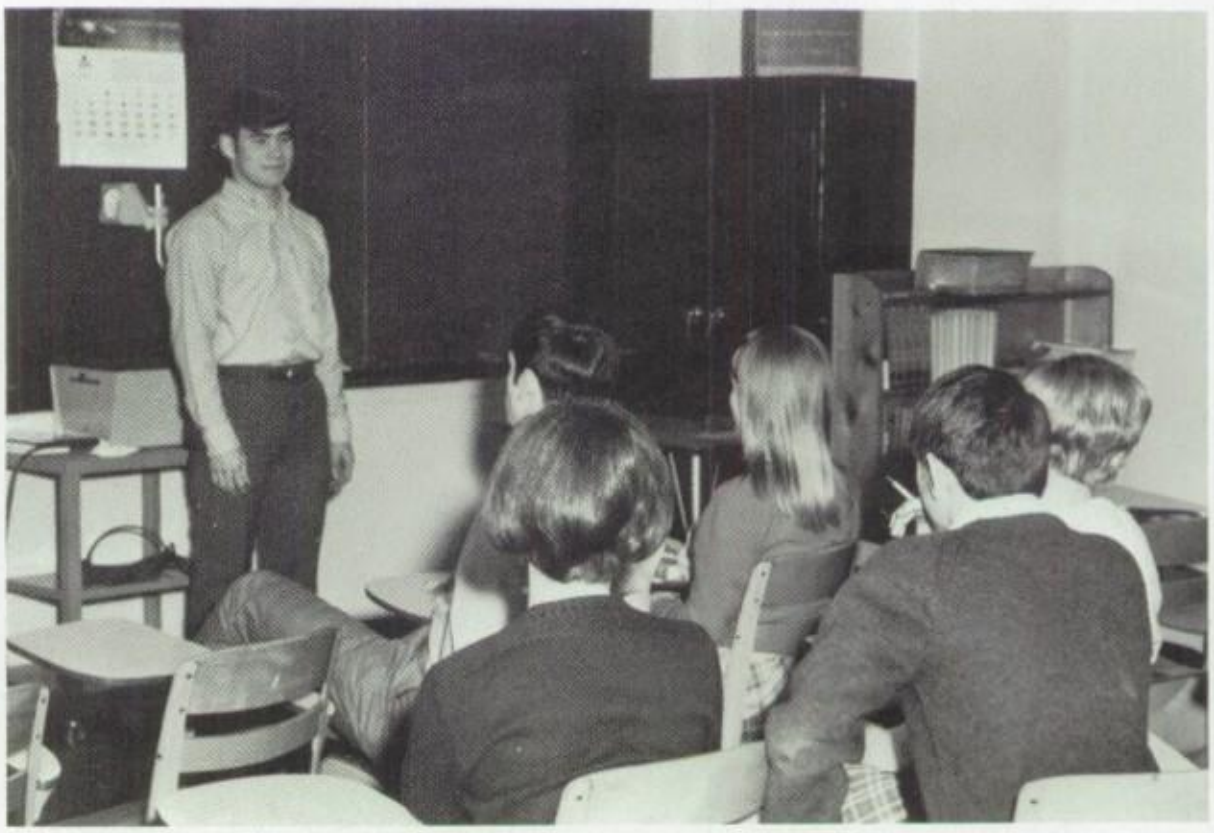
German



German is the language of many prominent scientists, the Alpine farmer, some of the world's most famous writers, and of a beautiful land. The students learn to know all these better by studying their language.

Speech

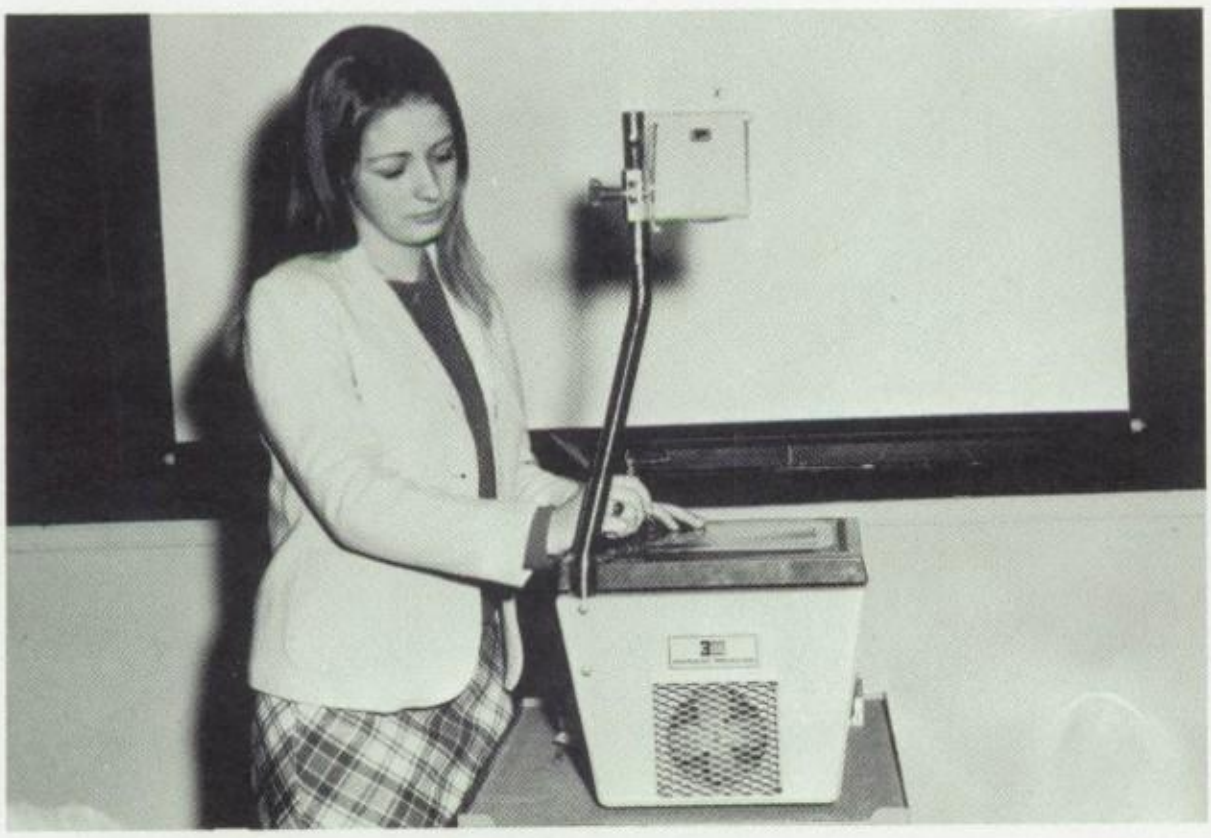
Who's afraid to get up in front of a group? After you've done it about fifty times in speech class, it doesn't seem scary at all. Besides developing poise and confidence in public speaking in general, specific types of speaking situations are practiced, such as: panel discussions, symposiums, round-table discussions, forums, debates, storytelling (to children), choral readings, and business meetings.



English

Junior English is the last required English course. This is the year the college-prep students learn to do a research paper. The other writing emphasis is on creative writing. This year American literature is studied; differences in American dialects are also surveyed. Student freedom to discuss is encouraged, and short speeches and an oral book review are given.

Vocabulary



Prefixes, suffixes, and both Greek and Latin roots are studied in the Vocabulary Class. The object of the course is to help the college-bound, when they come across a new word in context, to figure out the meaning without going to a dictionary. The learning and understanding of scientific terms is also made much easier since most of the new scientific terms that are constantly coming into our language as new sciences are developed and formed directly from the Greek prefixes and roots.

Journalism

Journalistic style of writing is studied and practiced, as well as how to gather, organize, and select material for publication. Besides studying the theories in a text during the first semester, the students produce and publish a weekly paper (Waka-Hi-Lites) for the entire year. Not only do they put out the paper, but they also man the milk-shake machine at noon to earn the expense money for the paper so it can be placed in each home represented in the school (kindergarten thorugh twelve) without charge.

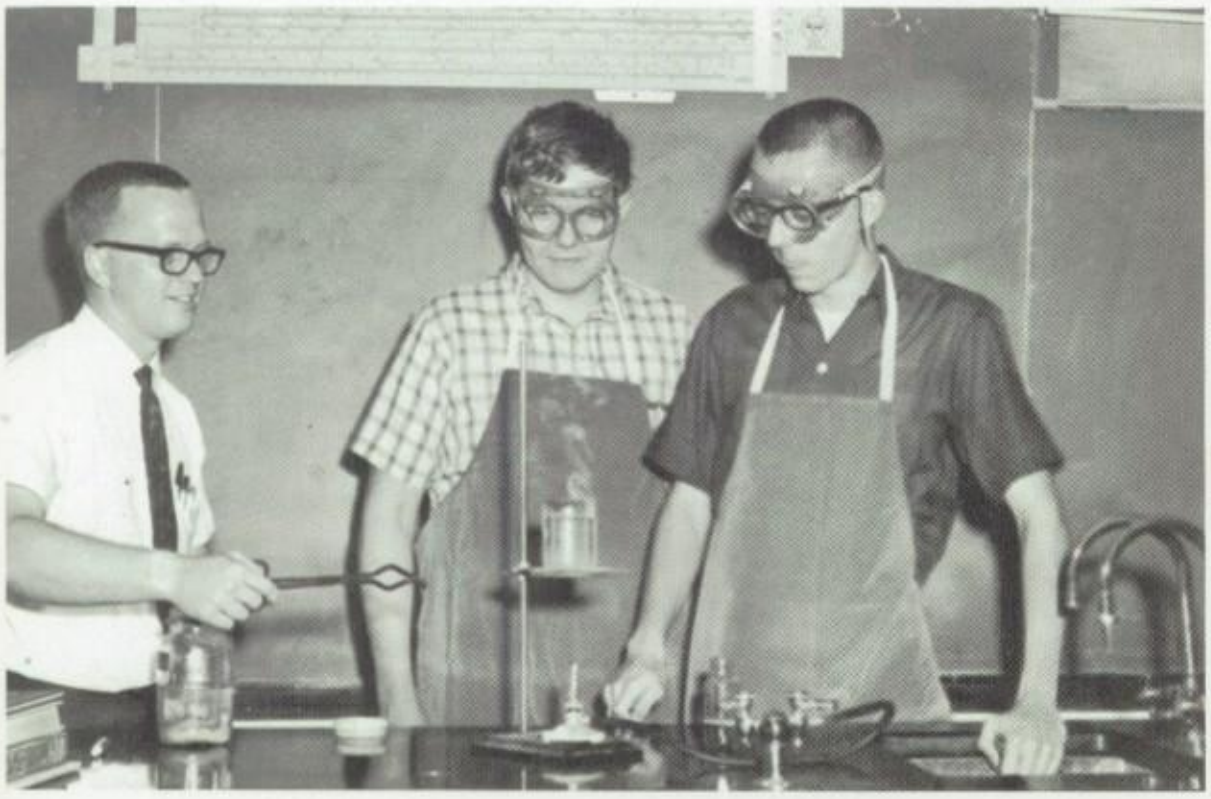
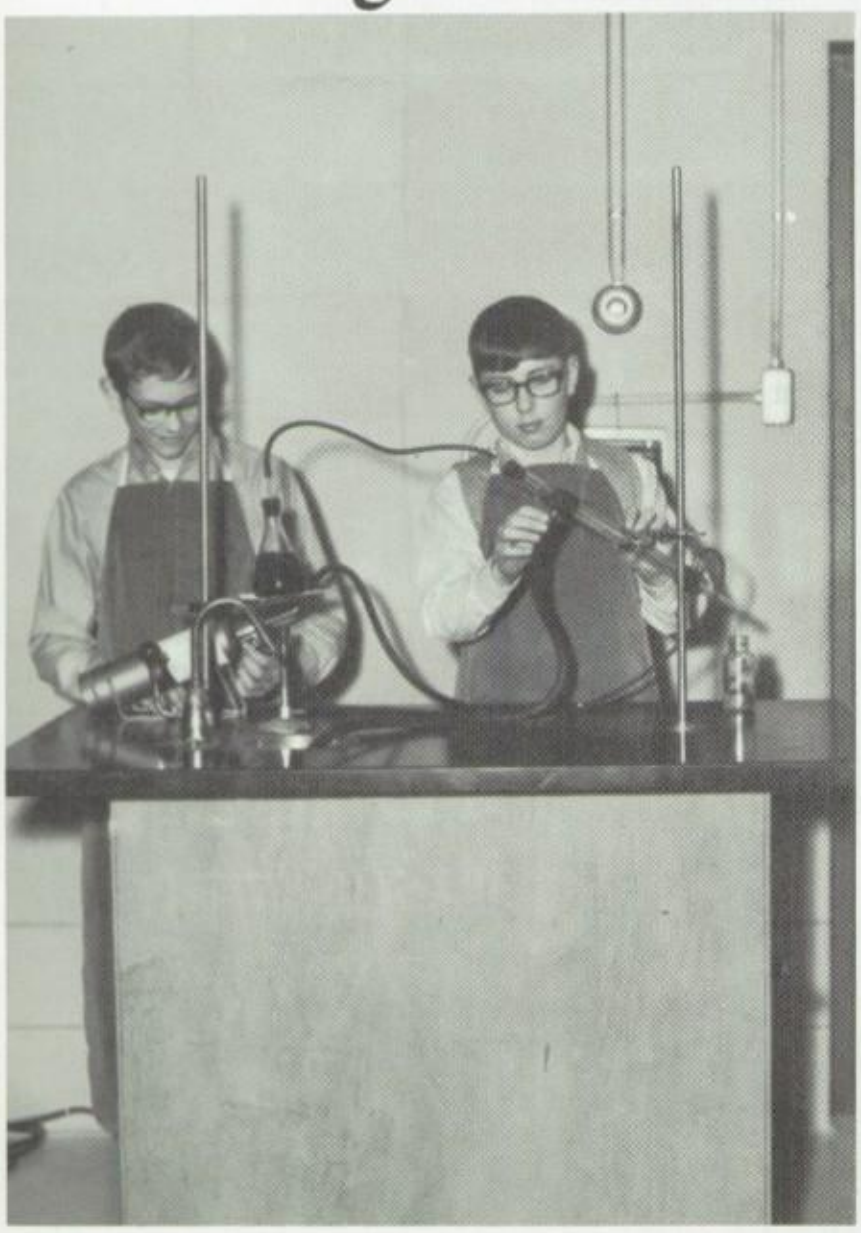
Science



Chemistry

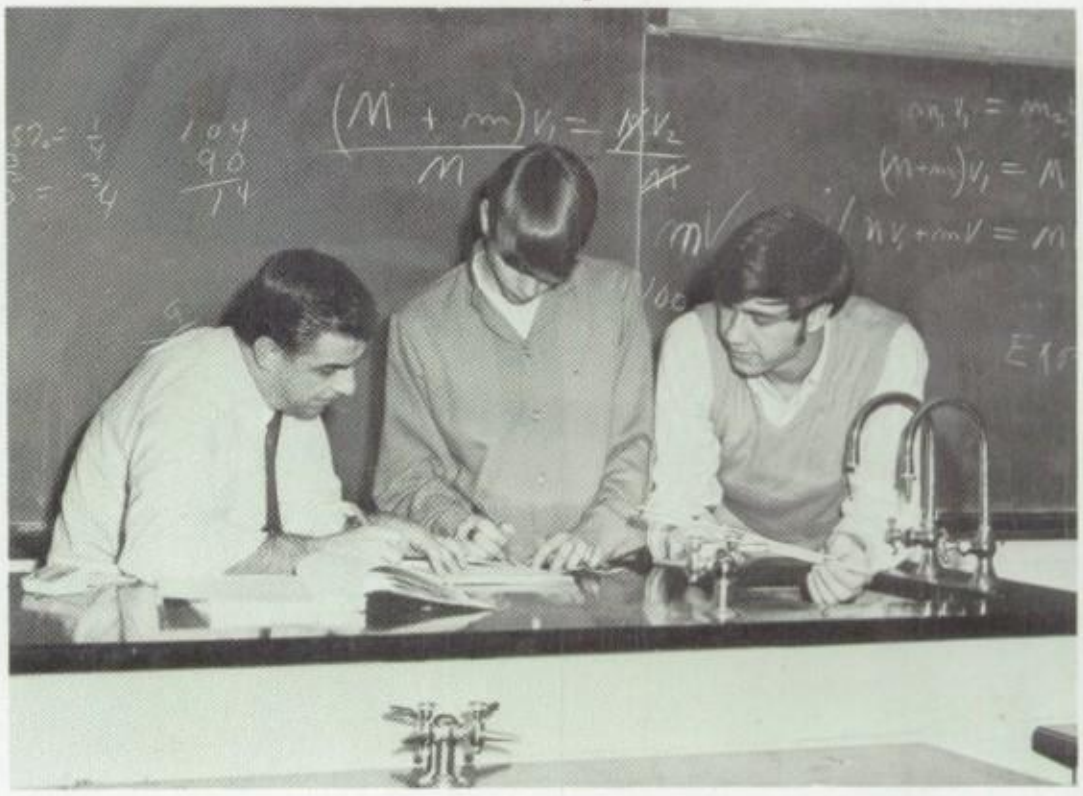
Chemistry is that branch of science which studies the composition of substances and the changes that take place in their composition. The compositions and the changes that take place are first studied in the textbook, then are observed in the laboratory.

Jr. High Science



A junior high science curriculum must provide a firm foundation of scientific knowledge. These basic areas are the biological, earth, and physical sciences. The study of these areas should develop attitudes, skills, appreciations, and interests.

Physics

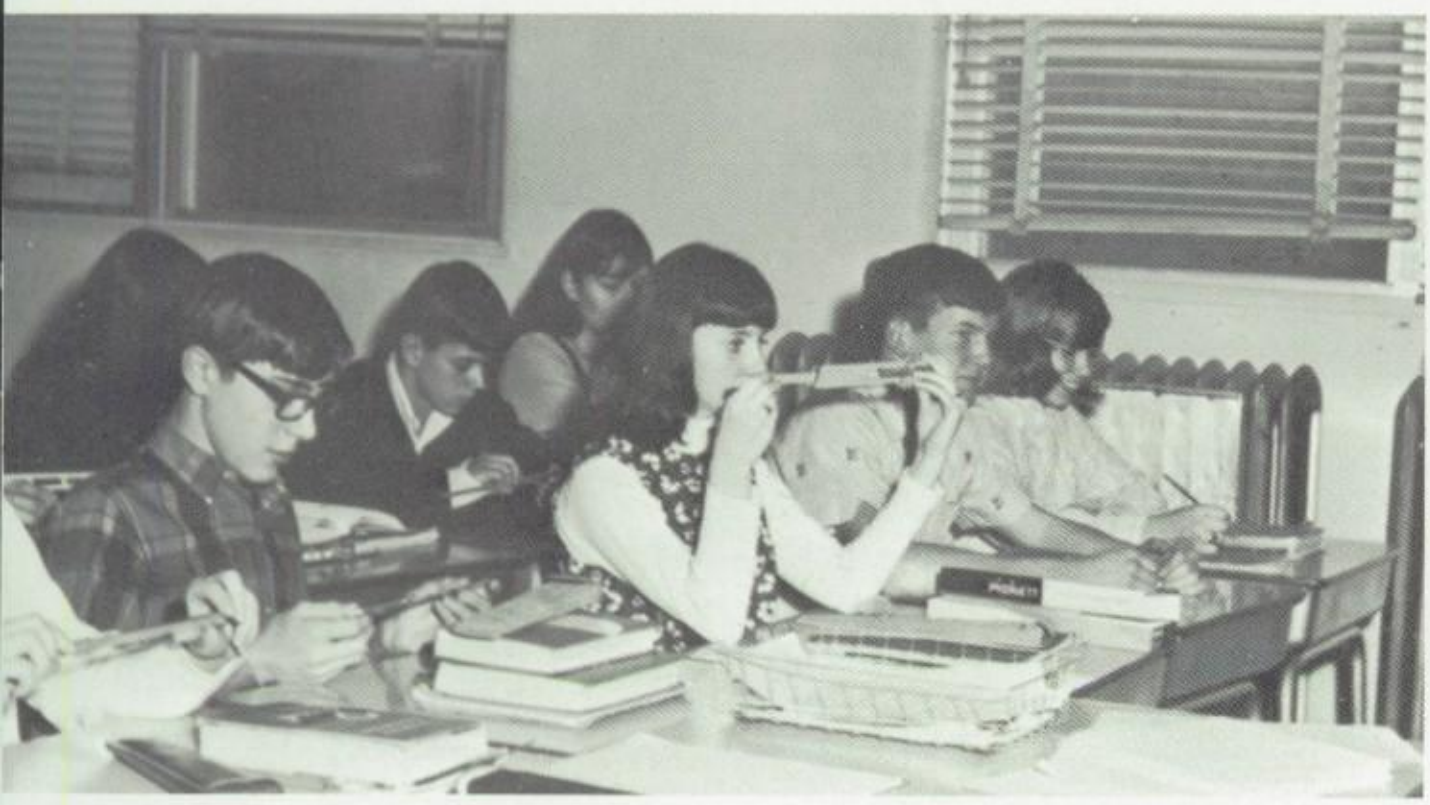


Physics is the study of matter and energy and the relationship between them. This would include the studies of motion, heat, light, electricity, and mechanics.

Biology

The study of biology should develop in each student a greater awareness of the world of life and consequently a deeper appreciation for the complex interaction among living organisms occurring daily in this world.

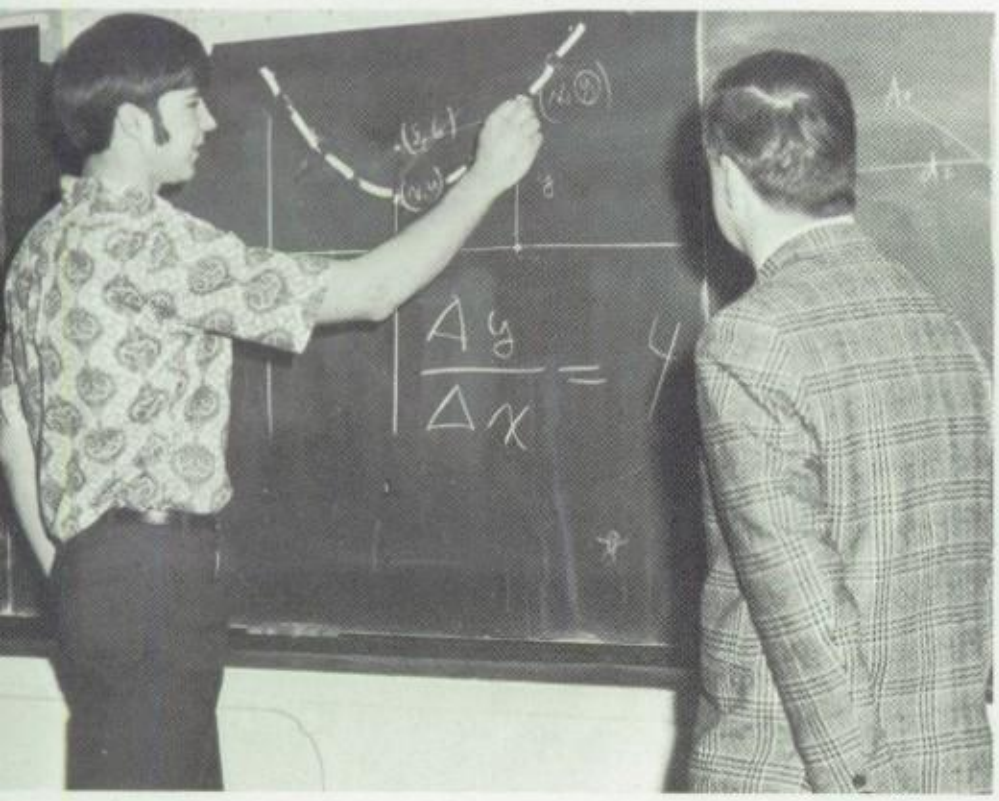
Math



Geometry

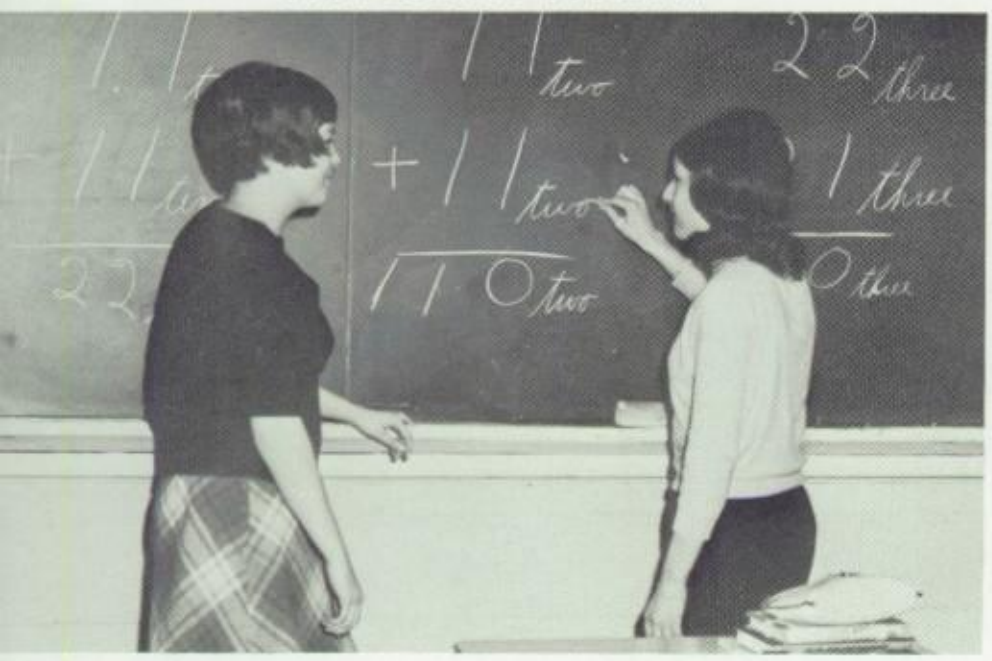
Geometry is the branch of mathematics dealing with the relations, properties, and measurements of solids, surfaces, lines, and angles.

Advanced Math

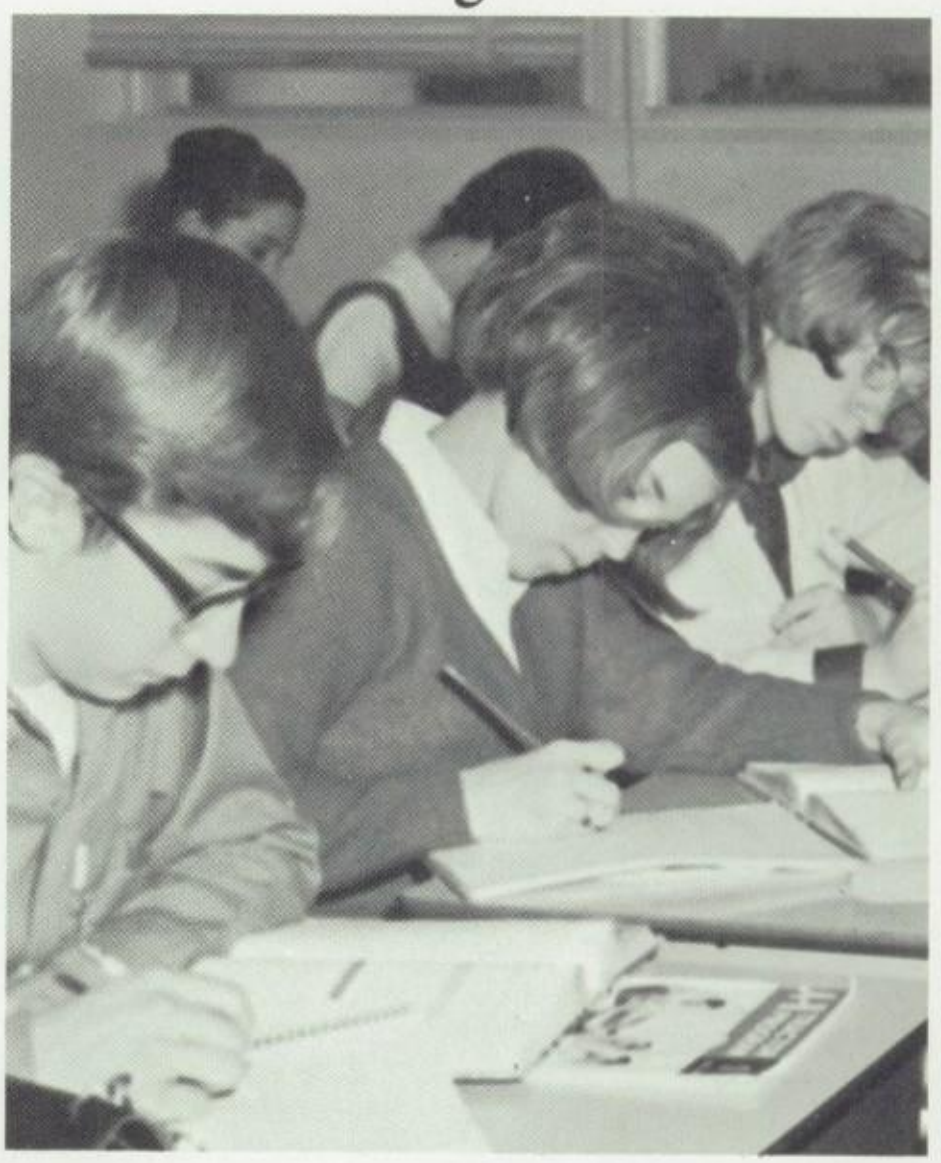


Advanced Math is mainly trigonometry, analytical geometry and probability. There is also some study of complex numbers, solid geometry, and the theory of equations and calculus.

Modern Math



Algebra



The basic number system, also known as the real numbers, is studied in Algebra. The students learn concepts and skills which are necessary in work with real numbers. Students also learn to use deductive reasoning as a basic mathematic tool, and to appreciate the need for precision in our mathematical language.

Modern Math should provide the necessary foundation for their future, and help students prepare for intelligent participation in a society that will be even more technological than our own.

Football Homecoming
October 12, 1968

Senior Float

Junior Float

Sophomore and Freshman Float

Queen Carla Hunsberger and her court.

This year's Homecoming is only the sec
ond, but will be the last in Wakarusa High
School history.

Miss Hunsberger and her court were
nominated by their respective classes and
elected by the student body.

Homecoming is a football game, a bonfire
a dance, a lot of fun, and memories of a
perfect football season.

Varsity Basketball

First Row: Dean Troyer, Doug Davis, Bob Abel, Abner Brown. *Second Row:* Ken Schreck, Manager; Cliff Graybill, Manager; Steve Neff, Ron Drudge, Jack Jamison. *Third Row:* Coach Ted Wesolek, Dean Brown, Steve George, Deni McBrier, Larry Weldy.

ACTIVITIES

Yearbook Staff

No one can ever know what happens behind the scenes in a Waka Memories workroom unless he himself has been a part of the action. Neither can they know the time, effort, and patience required to build a book. We hope that some day our work will serve as a refresher of these memories of 1969.

JIMMY DiRADDO, guest speaker

Plunging into one activity after another, these students seem to be trying to stamp out the saying, "idle hands."

The Student Council donated a flag to the school in a special dedication ceremony held around the flag pole.

One of the biggest jobs they had was to help name the new school.

In addition, the Student Council has presented four programs and two movies to the student body.

Library Club

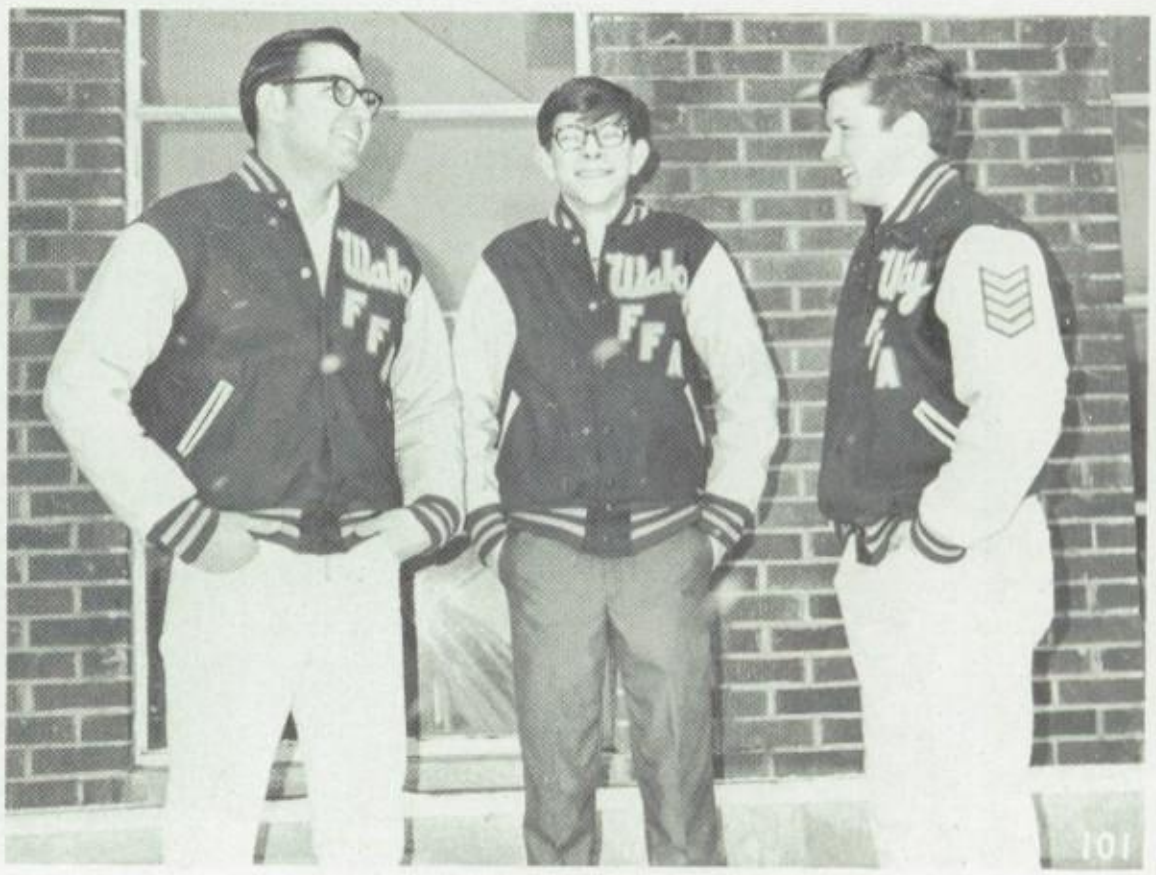
FUTURE FARMERS OF AMERICA
THE NATIONAL ORGANIZATION FOR BOYS STUDYING VOCATIONAL AGRICULTURE

Quite a number of these "Blue Jackets" were seen around WHS this year. This meant only one thing; members of the Waky F.F.A. are proud of their club and want to show it by flashing their bold blue jackets.

The local chapter is part of the state and national F.F.A. organizations. There are over 12,000 F.F.A. members in Indiana.

Among the many activities in which F.F.A. members participate are dairy and livestock judging.



Senior Y-Teens

Officers

President ..... Julie Schrock
Vice-President ..... Nina Ummel
Secretary ..... Lana Mattern
Treasurer ..... Janet Martin

The Y-Teens Clubs, which are affiliated with the local and national Y. W. C. A., strive to develop goodwill, trust, and personality by sharing work and fun.

Jr. Y-Teen

Goldenaires

The Goldenaires are part of the new "Music Action" program of Wakarusa High School. The membership is selected each year by the director of music on the basis of musicianship, personality, maturity, stage presence, and character. The conception of the organization is simply to show the world that clean-cut, attractive and talented young people can do a well-planned, professional musical program without the use of gimmicks. The Goldenaires have had overwhelming response. They placed first in the state wide swing choir contest. Through their presentations they have encouraged other young people to reach out for music.

Drama Club

The Drama Club has practiced diligently to put on two plays, "Be Deckin' the Halls," a comedy taking place during the Christmas season, and "The Miner's Daughter," an old-fashioned melodrama. Members put a great deal of time and effort in making these plays a success.

Spanish Club

The Spanish Club is one of the newer clubs at Wakarusa. This club started the new year out with a pinata party. They also visited Chicago with the Elkhart and Nappanee Spanish Clubs.

Stock Market Club

The members of the Wakarusa Stock Market Club learn about American business by following the market quotations and by actually investing in the corporations of their choice.

Started in 1968, the club decided it should organize like a real corporation. A committee was formed, and a charter was drafted.

The fact that the members buy shares in the club for $.50 each makes the club a corporation itself.

The members are allowed one vote per share owned in the club. They elect a board of directors consisting of the usual four officers and Mr. Roger Troyer, their sponsor. Mr. Troyer is mainly responsible for the club's formation and has the gratitude of all of the membership.

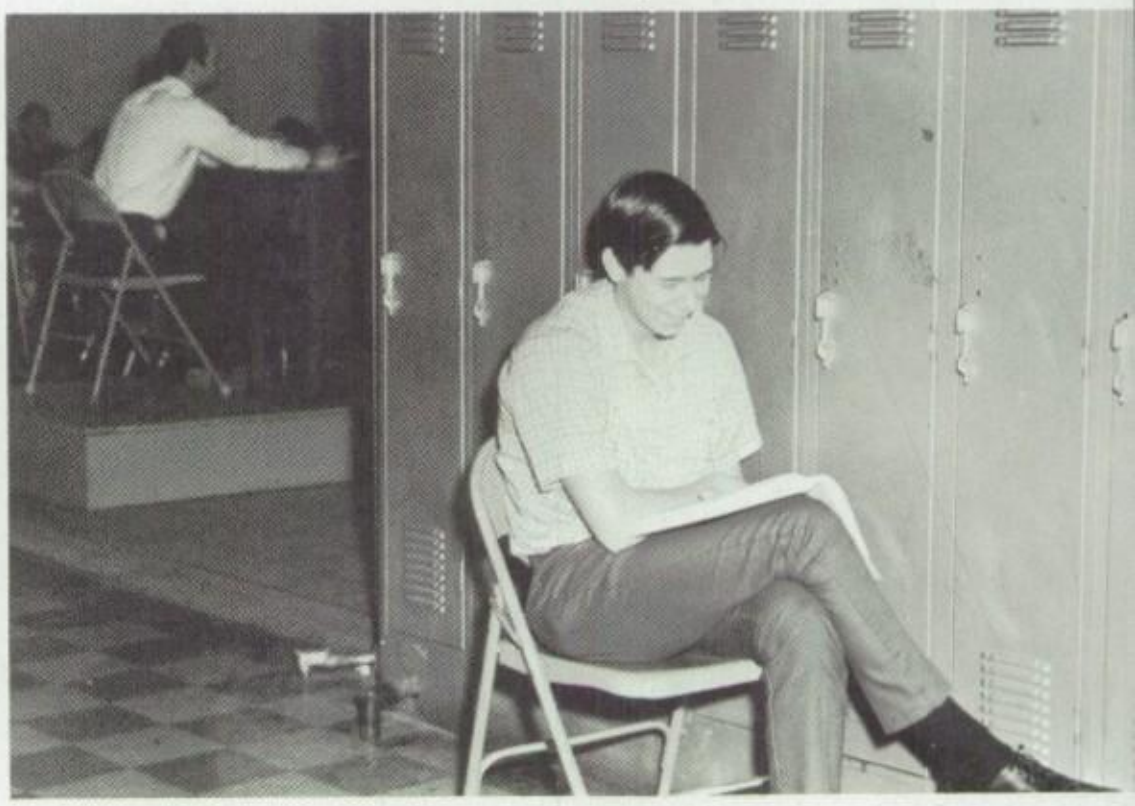
Pep Band

The WHS PEP BAND is a volunteer organization of band members who provide the music for pep rallies, ball games, and the like. At this game they are wearing their new purple sweaters for the first time.

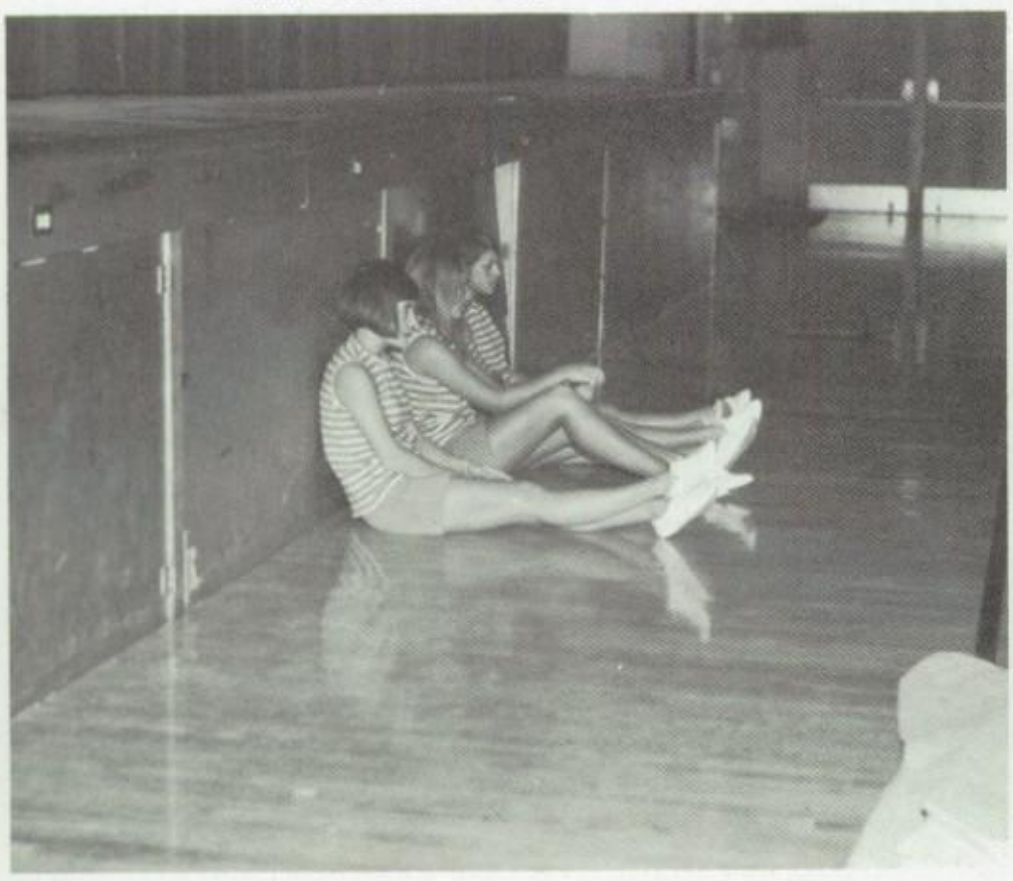
Adult Farm Class—Learning is a continuous process.

It's gotta be here someplace!!

Mrs. Nelson, control yourself!!



I should have used Scope ...



Pooped!!!

Oh, Dean, please ...

History of Wakarusa High School

In this sketch of Wakarusa High School, it is not the purpose to give a detailed account of the work of each year or to give the names of all instructors and the length of their service, but rather to show the development of our school in the thirty years of its existence.

In the summer of 1894 our school building was remodeled and the west wing was added. The work on the building was delayed and at the opening of school in the latter part of September, the work was still incomplete. So amid the sound of carpenters' saws and hammers, in the room now used by the Home Economics classes, the Wakarusa High School had its humble beginning.

For several years previous, a few high school subjects such as Algebra, Geometry, Commercial Arithmetic, General Science and Physical Geography had been taught by our most efficient Grammar Grade teacher, J. W. Replogle.

In 1894 our trustee, J. H. Dell, secured the services of F. T. Atkinson as principal and instructed him to organize a high school. This was not an easy task but the pupils were classified and the work arranged in accordance with the state course of study. The first class graduated in 1898.

Our high school was organized as a township school but after about six years it was taken over by the town and controlled by a school board. This organization was continued until the spring of 1923, when it again became a township school.

After six years' service, F. T. Atkinson was succeeded in 1900 by W. H. Sims, who died in the spring of 1901. Willard Miller finished the work of this year and began teaching again in September, but his term of service was ended by his death.

A. C. Steele next took up the work and taught until the spring of 1906. Lola Beatty, L. M. Culp, Julia Beecher, and Myrtle Troyer assisted at various times during this period.

W. H. Brinson succeeded Mr. Steele and served until 1911. He was ably assisted by Dan Nye, Burton Yarian, H. L. Stump, and Vernon Schwalm.

From the beginning, literary work was encouraged, but attained its highest mark during the period from 1906 to 1911. Special attention was given to music and art under the direction of Mable Swartz; and debating and public speaking were emphasized. School spirit and class loyalty reached a high temperature and one class guarded its colors all night.

In 1911 Herbert Hollopeter was Superintendent and was followed the next year by A. J. Miller. S. L. Scoles came to us in 1913 and remained five years. He introduced the subject Home Economics. The Manual Training work was strongly emphasized and the Art Work under the supervision of Mable Fisher was excellent.

In 1918, Malinda Werntz headed the faculty, which for the most part consisted of ladies, as this was during the world war period.

Charles Sunthimer had charge of our schools then for three years, from 1919 to 1922. A Dramatic Club was organized at this time and under its direction a high school play is given each year.

The last two years, C. J. Gerber has been at the head of our schools.

Our attendance has increased gradually until it reached 143 during the present. Our faculty numbers seven and the prospects are good for a new building and increased opportunities for another year.

Written in 1924 by—Malinda Werntz '98

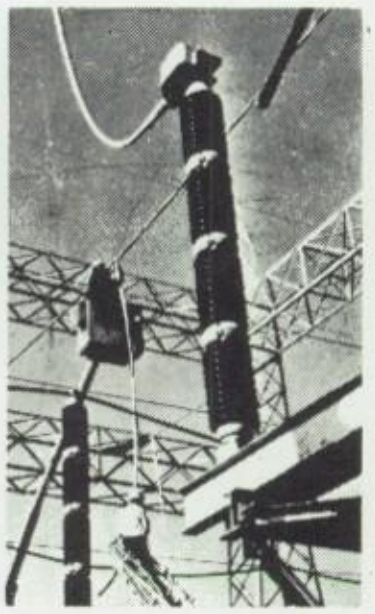
MEMBER FEDERAL DEPOSIT INSURANCE CORPORATION

AN OPPORTUNITY TO SERVE

An opportunity to serve awaits industrious young men and women at Northern Indiana Public Service Company. As one of the top gas and electric distribution utilities in the United States, NIPSCO is constantly looking for new processes and methods of efficient operation. These include atomic power generation, extra high voltage transmission, underground electric distribution, computerized system planning, underground storage of natural gas, community analyses and electronic data processing.



Ready to grow with a growing company?

IN AN ATMOSPHERE OF GROWTH

NIPSCO is one of the highest-paying utilities in the State of Indiana. Its attractive employe benefit package—tuition refund plan, vacations, holidays, life insurance, comprehensive medical insurance, pensions, etc.—provides an atmosphere for individual growth. Fifteen leading colleges and universities are strategically located throughout its service area with others available in the greater Chicago area. Drop in. We'll be glad to talk jobs with you.
